PRICE FIVE CENTS

TWO-YEAR TERM FOR VICTORIA'S MAYOR PLANNED
Marchant and Aldermen Favor Change Which Will Be Considered Monday

Aldermen Want Big Salary Increase; Suggest Raise to \$1,500 a Year

That Victoria's Mayor in future be elected for two years instead of one is among proposals which will be considered by the City Council when it meets in its special session today to draft legislation to be laid before the Provincial Legislature this fall.

Extension of the mayoral term to two years was discussed at a special luncheon meeting of the civic legislative committee yesterday, and the proposal received considerable support. Mayor Marchant, it is understood, favors the plan on the ground that as aldermen are elected for two years the same term should apply in the case of Mayor also. Alderman E. S. Woodward, chairman of the Legislative Committee, is flatly opposed to the idea. He holds that the people should be given an opportunity every year to elect a new Mayor if they are not satisfied with the existing chief magistrate.

Yesterday's meeting of the Legislative Committee served to whip the city's lengthy legislative programme into fairly good shape. Most of the proposals were endorsed by the committee, but the Mayor's plan for the creation of a Provincial Local Government Board was generally opposed. The Mayor, in fact, stood alone in this idea.

Want No Interference
Aldermen take the ground that they are quite able to look after the city's affairs without the interference of a local government board. They feel that they should be the final court of appeal in all civic matters. The Mayor, on the other hand, declares that British Columbia cities will never solve their financial difficulties permanently until some check is put upon their spending habits. He believes that City Councils should not have power to tie the cities up to expenditures extending over long periods without the approval of the provincial authorities through a local government board.

Aldermen generally are in favor of increasing their salaries, but developed at the meeting they do not think that the annual salary of \$900 proposed by the Mayor is enough. Leading aldermen announced that they would vote for a salary of \$1,500 a year but not for \$800. If any increase is to be made it should be really substantial, they declared. The present salary of \$400 a year, they say, is a joke. A number of Council members are understood to be behind Alderman Todd's proposal that aldermanic salaries be fixed at \$125 a month.

VICTORIA MAY HAVE HARBOR BOARD
Vanouver Commissioners Here With Dr. King Looking Over Works

The Vancouver Harbor Commission, consisting of R. E. Beattie, chairman, Sam Prenter and Col. Kirkpatrick, came to Victoria today to look over Victoria Harbor works. The Hon. J. H. King, Minister of Public Works, accompanied them.

"We just came over here to get pointers so that we might know how a harbor should be run," said Col. Kirkpatrick.

It was reported today that there is a proposal to establish a Harbor Commission for Victoria, but no official statement was forthcoming. The proposed Commission, according to those who are urging it, would not only have control of Victoria Harbor proper, but would take charge of the entire Point Blunt and arrange for their utilization in the way of transshipping cargoes.

The Vancouver Harbor Commission today were interested in the proposed floating bridge project, the mouth of the harbor to connect the railway terminals on the Songhees Reserve with the outer wharves, which is now before the Provincial Government and Dr. King for consideration.

Dr. King arrived at the Parliament Buildings early today and had a two-hour interview with Premier Oliver. They discussed the steel industry proposals and other matters having to do with both governments, but they had no public statement to make afterwards.

Dominion and Provincial Public Works engineers were called into the Premier's office and the problem of river bank protection in Coquitlam was settled. It was decided that the channel is blocked with driftwood to such an extent that if a flood comes it will result in an overflow of adjacent lands. The engineers advised that it was more practical to cut a new river channel than to remove the accumulation of drift. It was explained that not only is the land adjacent to the river liable to be damaged, but also the Provincial Government's colony farm the dykes of which are in danger.

After these facts had been discussed a tentative arrangement was arrived at for the construction of a new channel at a cost of \$25,000, 10 per cent of the cost to be borne by the City of Port Coquitlam, 40 per cent by the Provincial Government, 50 per cent by the Province.

Discussion over the Nicomen Island situation turned along the line of what it might be possible to do, but no conclusion as to any special work was arrived at. The engineers expressed the opinion that additional data was required.

DAILY ADVERTISER, OF LONDON, ONT., CHANGES HANDS

Toronto, Sept. 15.—The Mail and Empire publishes the following dispatch from London, Ont.: "The London Advertiser, the local Liberal organ, publishing morning and evening editions, has been sold by T. H. Purdon, K. C., to W. F. Herman, of Windsor, proprietor of The Border Cities Star, The Regina Post and The Saskatoon Star."

AEROPLANES TO DO POLICE WORK IN MESOPOTAMIA

London, Sept. 15.—The present system of policing Mesopotamia with ironclads is to be replaced with a scheme of patrolling by armored cars and aeroplanes, it was learned after the departure from Southampton of 100 officers and 1,000 men of the Royal Air Force. The contingent includes about 50 pilots.

TURKS KILLED OVER 1,000 CHRISTIANS IN SMYRNA, SAY REPORTS

London, Sept. 15.—From 1,000 to 2,000 Christians had been massacred in Smyrna by the Turks before the fire which swept the Armenian and other quarters of the Asia Minor seaport recently evacuated by the Greek army, it is charged in semi-official and other Greek messages from Athens received here today. Among the Turkish outrages was the carrying off of many girl pupils of the American Girls' College, it is alleged.

The Greek belief is that the fire was set by the Turks to conceal the traces of their alleged misdeeds.

DISARMAMENT PLAN IS URGED

Nations Spending More Than in 1913 Affected
League Assembly to Debate Proposal

Geneva, Sept. 15.—The Disarmament Committee of the Assembly of the League of Nations has decided to recommend to the Assembly a resolution introduced by M. de Jouvanel, of France, asking all countries except those whose situation has been changed to reduce their expenditures for armaments to the figures of 1913. This would exclude the United States, Canada and Spain.

The reductions are indicated by the statistics of the mixed commission, which show the following countries are spending more for military purposes than before the war:

Great Britain, 19 per cent; India, 14; Australia, 17; Canada, 71; New Zealand, 15; Portugal, 71; Japan, 25; Denmark, 23; Poland, 48; Sweden, 20; Belgium, which is spending 32 per cent more than before the war, is excused because she had virtually no army in 1913, but was protected by treaties of neutrality.

Now Spend Less.
The countries which are spending less than in 1913 are: South Africa, 25 per cent; Roumania, 23; Italy, 48; Brazil, 45; France, 43; Switzerland, 39; Norway, 14.3.

M. de Jouvanel said he had not included the United States because every one felt that the stronger the United States was the greater guarantee against war.

MANY BODIES LAY IN STREETS

Malta, Sept. 15.—Hundreds of bodies of victims of the Turkish massacre in Smyrna were lying in the streets of the city when the British hospital ship Maine left there with 400 refugees on board, it is stated by Reuters' dispatch. The ship, which arrived here on the Maine today.

BOODY HULLED UNDER BRIDGE

Albert A. Morrow Thought to Have Fallen Fifty Feet to His Death
Bridge Workers Make Discovery While at Work on Staging

Identified as the body of Albert A. Morrow, a commercial traveller of Vancouver, the remains of a man were found at the bottom of a 50 foot shaft at the Johnson Street bridge workers at 11 a. m. this morning. The body lay huddled up as if the man had slipped through the staging and dropped a clear distance of 50 feet to dry ground below. The body was found in such a manner that gave rise to the opinion of witnesses that the neck had been broken.

Called to the scene Constables Wood and Littlefield of the City force removed the remains to the morgue. Dr. F. J. Parler, coroner E. C. Hart was notified and an inquest will be held at the undertaker's to-morrow morning at 11 o'clock. From information in the hands of the police and other sources it appears that the man was last seen alive on Johnson Street at 10.30 p. m.

Considerable mystery surrounds the death in the light of the fact that to fall down the shaft where the remains were found the man must have walked out along the staging that is part of disused scaffolding. A steady flow of Canadian labor on the bridge of the incident, it is said, had no right to be there at all.

A sad feature of the case lies in the fact that Mrs. Morrow was intending to join her husband here this morning, having crossed on the night boat from Vancouver. When Mrs. Morrow arrived the husband was not there and she was left until the finding of the body that a suspicion of harm came to the minds of the police. Mrs. Morrow, his widow, had been notified by the hotel authorities where they were to reside.

LYDD GEORGE MOST POPULAR

"Golden Ballot" Contest in Britain so Decides

Names of Fifteen Others on the List

London, Sept. 15.—(Canadian Press Cable)—Odd placings have been revealed by the result of the "Golden Ballot," whose promoters recently obtained a court ruling that they were not infringing the Lottery Act. The ballot resulted in the following being placed in a "cabinet" of sixteen most popular people in this country, in the order of their popularity:

Premier Lloyd George, Right Hon. Andrew Bonar Law, the Earl of Balfour, Field-Marshal Earl Haig, Admiral Lord Beatty, Lord Derby, Right Hon. Austen Chamberlain, Right Hon. Winston Churchill, Right Hon. J. H. Thomas, Lord Birkenhead, Viscount Grey of Fallodon, the late Lord Northcliffe, Right Hon. Sir Eric Geddes, Right Hon. J. R. Clynes, Right Hon. Sir Robert Horne and Lord Carson.

The fewest votes in connection with the Golden Ballot went to Eamonn de Valera, the Irish Republican leader.

Tickets bearing the names of prominent persons included in a list from which the sixteen most popular persons in Great Britain were to be selected were sold by the promoters of the contest and were issued in serial form. Having chosen the most popular person through the sale of tickets, the promoters next determined the winner among the ticket holders by holding a drawing competition in which duplicates of stubs bearing the name of the most popular persons were used. In this case the person holding the winning ticket bearing the name of Lloyd George will receive £2,500, and other prizes will be won according to the draw and the standing of the ticket in the list.

BRITISHERS AMONG THOSE MURDERED

Savage Turkish Acts in Smyrna Reported
Fourteen Naturalized Americans Are Missing

London, Sept. 15.—An American destroyer, which has arrived at Piraeus, Greece, reports that the Turks entered the British consulate at Smyrna and killed an official who was assembling the archives, says a Reuters dispatch from Athens today. Postmaster Wilkinson is also said to have been murdered, as well as other Britishers.

Sir Harry Lamb, the Consul-General, is believed to have escaped on a warship.

Americans Missing.
London, Sept. 15.—It is believed that the fourteen naturalized Americans reported missing in Smyrna are members of the American International College. They were at the Paradise College compound, three miles from Smyrna, according to a telegram dated September 12.

Several teachers of this college already have fled.

BRITISH ADMIRAL WARNS TURKS TO STOP MURDERS

London, Sept. 15.—The admiral commanding the British squadron off Smyrna has warned the Turkish authorities in the city that if the massacres are continued the Turkish quarters will be bombarded, says an Exchange Telegraph dispatch from Athens.

THOUSANDS LOST LIVES IN SMYRNA

City Ruined by Great Two-Day Fire
Tragedy Reported in Constantinople Dispatch

Constantinople, Sept. 15.—Smyrna has been completely wrecked by the conflagration which has been raging there for the past two days, according to information from authentic sources reaching here. Thousands of persons are believed to have perished.

CONSTANTINOPLE HEARS RUMORS

Nationalist Troops Only 35 Miles from City
Populace in State of Nervous Tension

Constantinople, Sept. 15.—The Turkish Nationalist army is now within thirty-five miles of Constantinople. The population is in a state of nervous tension and the entire city is rife with rumors about Mustafa Kemal Pasha's designs upon the capital.

The Greek destroyer Panther sent an ultimatum to the Allied Powers demanding the evacuation of their forces from the city so as to permit the entrance of the Turkish Nationalist army. Another is that Nationalist troops have crossed over to the Gallipoli Peninsula from Chanak, planning to march on Constantinople with the object of taking Adrianople.

NO HANGMAN, SO EXECUTION DELAYED

Unusual Situation Develops at Woodstock, N.B.
Ellis Not Employee of Justice Department

Ottawa, Sept. 15.—(Canadian Press)—At the present time Canada has no official executioner. Recently it has been suggested that Arthur Ellis, who has been recognized as conducting executions, but not, it is announced, as an employee of the Department of Justice. This curious situation has been brought to light by delay in the execution of Bonnie Swin, who was to have been hanged at Woodstock, N.B., today. Swin was granted a reprieve by the Chief Justice of New Brunswick because Sheriff Jones was unable to find an executioner. Sheriff Jones made an affidavit to the effect that he had first engaged Arthur Ellis, "once in the employ of the Department of Justice, but found afterward that he had been discharged by the Department," and that his efforts to secure someone else had been unavailing.

Not in Its Employ
At the Department of Justice today it was stated that Arthur Ellis had never been officially in its employ and therefore could not have been discharged. He had acted in a number of cases, but not as an employee of the Department.

It was stated further that the execution of convicted murderers is a Provincial and not a Federal matter, and that the Department had never employed an executioner.

It is understood that Arthur Ellis made a request some time ago that he should be appointed official executioner, but the request was refused.

U. S. IMPEACHMENT MOVE.

Washington, Sept. 15.—Impeachment charges against Attorney-General Daugherty as the result of his petition for an injunction in the case of striking railroad employees are presented to the House Monday by Representative Keller, Republican, Minnesota, will be considered by the Judiciary Committee to-morrow. Mr. Keller will be heard.

NOVA SCOTIA MOSQUITOES CAUSE SCHOOLS TO CLOSE

Amherst, N. C., Sept. 15.—Two Cumberland County rural schools have been closed owing to a "mosquito plague" that has swept the district with an alarming effect.

MEETING TO-NIGHT

Hon. Dr. J. H. King, Federal Minister of Public Works, will be the chief speaker at the monster Liberal gathering this evening in the Liberal Club. The meeting will open at 8 o'clock.

Hon. John Oliver, Hon. John Hart and others will address the meeting.

The selection of delegates to attend the Nelson Convention will also be made.

LEAGUE COMMITTEES MAKING PROGRESS

Lloyd George to Address Assembly Next Week

Representative Makes Arrangements in Geneva

Geneva, Sept. 15.—Sir Edward Grigg, private secretary to Premier Lloyd George, arrived here today to complete the arrangements for the visit of the British Prime Minister next week. The day of his arrival has not yet been decided upon, this depending upon the work of the committees of the League of Nations Assembly, which body Mr. Lloyd George is expected to address.

The work of the Austrian Committee is progressing favorably and it is understood it may be ready to report to the Council shortly so that the Council can bring the Austrian question before the Assembly in a few days.

The disarmament Committee hoped to finish its consideration of Lord Robert Cecil's plan and its other work today and make its report Monday, the date to which the Assembly adjourned after dealing with a few minor questions this morning.

Vilna Question.
One of these questions was the conflict between Lithuania and Poland over the possession of the Vilna district. The special committee which had been considering the subject reported in favor of referring to the Political Committee of the Assembly, Lithuania's protest against the proposed Polish elections in that district.

The Assembly adopted the report. It sent to the committee the complaints of Lithuanians regarding the treatment of their nationals by Polish officials, but it refused to place the question of the elections on the Assembly agenda. This buries the question of Vilna so far as the League is concerned and leaves Poland free to elect representatives to its parliament from that district.

RAILWAY BOARD COMES SOUTH FROM PRINCE RUPERT

Prince Rupert, Sept. 15.—The Board of Railway Commissioners headed by its chairman, Hon. P. B. Carvell, left here last night for Vancouver. The Commissioners have been sitting at Jasper Park investigating the question of whether the divisional point should remain at Jasper or be removed to Lucerne. J. O. Heaman, assistant chief engineer of the Canadian National Railway, is with the party.

HUNGARY TO BE ADMITTED AS LEAGUE MEMBER

Geneva, Sept. 15.—The Political Committee of the Assembly of League of Nations voted unanimously today to admit Hungary to membership in the League.

HUNDREDS OF REFUGEES DIE

Tens of Thousands at Marmora Ports
Many Throw Themselves Into the Sea

Constantinople, Sept. 15.—Rodosto and other ports on the Sea of Marmora are choked with refugees, who are arriving by the tens of thousands in an appalling state of misery. Hundreds are dying before they can be landed. The Near East Relief Administration has dispatched a shipload of foodstuffs and medicines for Rodosto.

Ten thousand Armenian refugees have arrived in the Hesperus five vessels, which will be given shelter in the Armenian churches of the city.

Into the Sea.
Mudania, Sept. 15.—Two companies of French infantry were sent to this city from Constantinople for the protection of refugees here, many of whom, panic-stricken as a result of the Turkish victories, are throwing themselves into the sea.

BRITISH WARSHIPS WILL BAR WAY FOR TURKS INTO EUROPE

Fleet Given Orders to Allow No Turkish Troops to Cross From Asia; Government Suggests General Conference of the Powers.

London, Sept. 15.—The British fleet has been instructed to allow no Turkish troops to cross from Asia to Europe, it was officially announced this evening.

This announcement followed a Cabinet meeting, which developed a complete agreement reached with the French for the protection of the neutral zones on both sides of the Straits of the Dardanelles and Constantinople.

It was announced that the British Government considers the whole Turkish question should be the subject of a general conference of the powers, including the minor powers, such as Roumania and Jugo-Slavia.

It has not been decided whether the United States will be invited.

TURKISH THRACE OPPOSED BY SERBS

Jugo-Slavs Against Any Such Spread
Great Activity at British Foreign Office

London, Sept. 15.—There were many signs of activity at the Foreign Office today, indicating the gravity of the Near Eastern situation.

It is an established impression in military circles that the Turkish Nationalist army is large enough to take the Turkish capital at Kemal's desire, and that he has sufficient guns to drive the fleet out of the Bosphorus. It is considered unlikely, however, that he would take such desperate measures unless he was persuaded that in no other manner could he obtain the capital of Thrace.

On the other hand, there are intimations that the Serbs, the dominating element in the Jugo-Slav Government, are determined not to have the Turks as neighbors in Thrace or to permit Bulgarians to secure a foothold on the Mediterranean Sea.

Conference.
The horizon of the approaching conference of the Near East is daily broadening, with intimations that Pomania and Jugo-Slavia will support Greece and Great Britain in the effort to keep the Turks out of Thrace.

A new factor has been brought into the situation, however, by the suggestion that Jugo-Slavia would demand the return of the port of Salonica, which she has long coveted as her logical port of entry in the south.

British Cabinet, however, is obliged to examine the situation from a far larger point of view than the other Allies because of the 70,000,000 Muslims in India, in addition to Great Britain's close interests in Mesopotamia, Egypt and other Muslim territories.

TURKS TRY TO PREVENT LOOTING

Troops Endeavor to Keep Order in Smyrna
Food Shortage May Cause Army Outbreak

Smyrna, Sept. 15.—The Turkish troops are making strenuous efforts to prevent wholesale looting by irregulars.

General Nouredin Pasha, commander-in-chief of the Kemal forces here, yesterday urged officials of the American Committee of Relief in the Near East to arrange for the evacuation of as many Greeks as possible, as he feared their return to the interior would mean certain death in reprisal for the alleged malicious destruction of Anatolian villages by the Greek troops.

The Turkish commanders fear outbreaks among their own troops, who are without food. Several regiments posted on the outskirts of the city have subsisted on uncoked barley for the last five days.

TURKS PURSUE FLEEING GREEKS

Remnant of Greek Army May Be Wiped Out

Mudania, Sept. 15.—The Greek cruisers Georgios Averoff and Kikos, the latter formerly the United States ship Mississippi, are at Panderma covering the retreat of the remnant of the Greek army, for whose safety grave concern is felt. The Turks are at the heels of the fleeing Greeks, and it is believed the latter are doomed unless the Greek Government can provide vessels for their escape.

When the Turks invaded this town they notified the French commander that the presence of his troops would not be tolerated, but he stood his ground.

Ghemlek, east of this place, is practically deserted.

The Greek destroyer Panther put up a heroic fight to keep back the invading Kemalists there, but the latter brought into action long range guns which soon forced the warship to retire.

ALLIES URGED TO AGREE ON PLANS

London Papers Press for Near Eastern Settlement
Action Needed Before Fresh Outbreak of Fighting

London, Sept. 15.—The London newspapers, dealing with the Turkish-Greek situation again today urge the necessity of an agreement among the Allies and declare it should be brought about as quickly as possible, the situation becomes further complicated, and especially before an outbreak of fresh fighting which might set Europe aflame.

Opinions Vary.
London, Sept. 15.—Opinions here on the Near Eastern situation are much divided regarding the Turkish claims. One view, which is strongly supported by a section of the press, is that Great Britain's only interest lies in the freedom of the Dardanelles Strait, and that if this is ensured she need not worry over the future position of Thrace and Constantinople.

Others are less easily satisfied and regard the restoration of Thrace and Constantinople to their former owners with the greatest disfavor, while a third faction is apparently willing that they be restored, but only on condition that Roumania and Jugo-Slavia agree.

INSURGENTS MAKE ATTACKS IN DUBLIN

Attempt to Seize Various Strategic Points
Free Staters Repulse Attacks in Dundalk

Belfast, Sept. 15.—"Pirates" of insurgents this morning attempted to seize various strategic points in the southern section of Dublin, according to dispatches received here. The places attacked included the Wellington and Portobello barracks, the telephone exchange and the King's Bridge Station of the Great Southern and Western Railway.

The firing was particularly heavy and continued for three hours, coming mainly from snipers on roofs.

The guard at the telephone exchange was smoked out and then assailed by men with bombs and revolvers.

The dispatch made no mention of the number of casualties.

PREMIER KING VISITS NORTH YORK CONSTITUENCY

Toronto, Sept. 15.—Premier King left here this morning for Stouffville, in his constituency of North York. It is not expected he will make any announcements of political importance in his address there today. He will conclude his trip at Sharon on Saturday.

It was understood here this morning that Mr. King's return to the capital on Sunday would be the signal for renewed activity on the part of the Cabinet, with the announcement of the new board of management of the National Railways as one of the immediate possibilities.

FREE STATERS REPULSE ATTACKS IN DUNDALK

Attempt to Seize Various Strategic Points

Belfast, Sept. 15.—Heavy firing continued during the greater part of the night in Dundalk. Several attacks were repulsed by the Free Staters. The Dundalk races enabled the republicans to gather a large town. They attempted the destruction of several bridges, but all efforts were without result.

A party of republicans entered an electric power station and cut off the supply.

(Continued on page 4.)

DONCASTER CUP WON BY DEVISES IN CLOSE RACE

London, Sept. 15.—(Canadian Press Cable)—The Doncaster Cup, a handicap of £4,000, run over the course of one mile and a furlong at Doncaster this afternoon, resulted in a close finish when Devises, Sir James Cook's five-year-old bay horse, by the Valens out of Dealons, won out by a head from D. G. Langley's four-year-old chestnut colt, Double Hackle. Third place went to the three-year-old colt, Revival, owned by A. W. Gordon. Four started.

COWICHAN FAIR.

(Times Correspondence)

Duncan, Sept. 15.—As British Columbia herds of cattle are free from tubercular affections than the cattle in general throughout the rest of Canada, and as the herds of Vancouver Island lead British Columbia in this respect, the newly planned fight to eradicate this disease in Canada is to be started on this island.

This was an announcement made in a speech at the Cowichan Fair here to-day by Hon. E. D. Barrow, Provincial Minister of Agriculture. Mr. Barrow told how the Federal Department of Agriculture had chosen the leading position of Vancouver Island by selecting it as the most favorable part to try the regulations, which will include a strict supervision of the importation of cattle, to prevent disease being brought in from other parts of the world.

Some of the finest herds of cattle in Canada are in the Cowichan valley.

Must Develop West For Prosperity of Canada, Says King

Government Intends to Co-operate With Provinces in Settling West and Improving Railway Terminal Facilities, Public Works Minister Declares; Western Trade Movement Will Bring Era of Prosperity, He Believes; Government Ownership of Railways to Be Given Fair Trial.

Canada's prosperity depends to a great extent upon the development of the West, and the Federal Government, through increased immigration and the improvement of railroad terminal facilities, is determined to bring about that development, Hon. J. H. King, Minister of Public Works, and British Columbia's representative in the Federal Cabinet, declared when Victorians welcomed him home at a public luncheon in the Empress Hotel at noon to-day. The Federal Government, Dr. King asserted, intended to co-operate with Provincial Governments in stimulating the settlement of the West and, with greater immigration and the western movement of trade, the Minister foresaw for the West another period of prosperity like that which preceded the Great War.

"When I accepted the portfolio of Public Works," Dr. King realized the great responsibility which the position entailed, especially in these days of high taxation and relatively low revenue. Dr. King commenced, "I realized that the utmost care must be taken in the expenditure of money and that proposed public works must be of sufficient importance to justify expenditures upon them. For that reason I decided to devote most of my time this year to looking over the public works which are proceeding in all parts of Canada, instead of remaining in my office at Ottawa. I have been all through the West and I have learned much and have gathered information concerning matters which do not come under my own department.

Expenditures Necessary. "It is a fact that if development is to proceed and Canada is to receive the advantages to which it is entitled, there must be expenditures of money on the Pacific Coast and I have no doubt that if we can conceive schemes that will be of benefit and are necessary we shall secure the money required to carry these projects to a conclusion.

"I find among our eastern friends and we must have their support as they are in the majority in the House of Commons—great interest and friendliness to the West. They realize that in the development of the West lies their own prosperity. If we can bring home that fact to the people of the East generally there is little doubt as to the carrying out of proper policies for the West.

To Develop Immigration. "So far as western Canada is concerned to-day its great need is for more people and that is greatly the policy of the Federal Government to develop immigration. We wish to co-operate with the Provincial governments to secure the class of immigrants which we wish to settle in the West. The Dominion Government undertaking to get the immigrants and bring them out and asking the provincial governments to give them fatherly care during the early stages of their residence. We believe that a policy of co-operation in this way will bring the best results.

Development in West. "I doubt if people generally realize what developments have taken place in the West in the last twenty years. It may interest some of you to know that in 1901 there were only 350,000 people west of Manitoba and 150,000 of them were in British Columbia. To-day there are in the three most western provinces 1,500,000 people.

"The influx of great numbers of people into Canada a few years ago was what brought prosperity then. If we can stimulate again immigration into the West we shall have that prosperity once more, I believe," Dr. King proceeded.

Trade Movement. "Another matter of importance to the West is the question of trade movement. The importance of the Panama Canal in this connection is very great. There will be a great movement through the canal from Western Canada, both to Europe and to the Atlantic seaboard.

"Again, grain men are beginning to realize that it is impossible to get best results from the Canadian grain crop by forcing it through the Great Lakes ports during a certain part of the year. It is realized that on account of our year-open ports on the Pacific coast and the fact that production of grain in the West is so great, that it will not be long before a great tonnage of grain will come through the Pacific ports to the markets of the world," the Minister declared.

Railways. Turning to Canada's railway problems, Dr. King observed: "To-day the Government of Canada owns the largest transportation in Canada, probably in the world. Opinions differ on government ownership, but the fact remains that the Government does own these railroads and it is the duty of the Government to give government ownership a fair trial. We are going to do that. And to do that we must improve our terminal facilities all along the line, and in addition, go out after more business.

Premier Oliver expressed the appreciation of British Columbia of Dr. King's work at Ottawa. "When I first heard that Dr. King had been offered the most important portfolio within the gift of the Premier of Canada my first feeling was of regret at the loss of my valued colleague," he said. "Later I realized that at Ottawa he could be of great service to British Columbia because he knows the needs of this Province from one end to the other. He has already we have experienced the benefits of Dr. King's presence in the Federal Cabinet. We have to thank him for his efforts to secure legislation which we needed in connection with Government liquor control in this Province and also in connection with the adjustment of western freight rates. I doubt that most people realize the advantage which we secured as a result of our fight for lower freight rates. Before our fight one mile in British Columbia was rated on the same basis as a mile and a half on the prairies. Now

it is rated on the basis of one mile and a quarter on the prairies and we are now appealing for a further reduction.

"The amount of gain made for British Columbia as a result of appeals, according to figures compiled by G. G. McGee, our counsel in the freight rates matter, is about \$3,000,000 net annum. Even if that estimate is fifty per cent. too high and I am not saying it is not fully correct, I think you will agree with me that the effort we made was fully justified and these results would not have been possible without the co-operation of Dr. King.

"There are still many matters to be settled between British Columbia and the Federal Government," the Premier pointed out. "The results of such settlements will be of incalculable value to the Province. Under present conditions I believe that we shall be able to get together with the Federal Government and settle matters which seemed impossible to settle before. And I believe that in all these matters we can count further upon the support and assistance of Dr. King. Mr. Spencer declared, he thanked the Minister for his assistance in having work in the Esquimalt drydock continued and for providing working facilities for the Anacortes Ferry.

MUST DEVELOP CANADA'S EXPORTS

Canadian Manufacturers' Association Chief Speaks

The Canadian Manufacturers' Association is now occupied with two vital questions affecting the welfare of Canada, namely the increase of Canadian exports and the amelioration of taxation troubles, J. E. Walsh, president and manager of the association, told several hundred business men at the Empress Hotel to-day during the luncheon given under the auspices of the Chamber of Commerce in honor of Hon. J. H. King, Federal Minister of Public Works.

Mr. Walsh said that he greatly appreciated the honor paid him by Victoria, inviting him to the luncheon tendered Dr. King. He was pleased to hear from the Mayor that he was optimistic and glowing report of British Columbia's progress. He recalled that in 1915 when he paid a visit to this province business was stagnant.

The speaker referred to the prominent position Canada was assuming as an export country and British Columbia's participation in the era of progress.

Mr. Walsh explained the system of the organization of which he is chief and informed his audience that the association was formed somewhat along the lines of the Provincial and Federal Governments. In this way when representations were made to the Government it was conclusive that the case was based on the opinion of business men in every section of Canada.

"There are two outstanding questions now before us," Dr. Walsh said, "and we want to emphasize the importance of further developing Canada's export trade. He thanked the Government for its co-operation in building up export trade to all parts of the world.

Taxation Problems. "People are being taxed out of existence," said Mr. Walsh in referring to the taxation problems with which every Government and municipality in the Dominion was confronted. He strongly advocated that Provincial, Federal and municipal governments should get together and see what could be done toward working out a solution that would bring relief to the over-burdened taxpayers.

J. W. Spencer, president of the Chamber of Commerce, presided at the meeting, and after Hon. Dr. King, the speaker was Mr. Walsh. He spoke he called upon O. H. Cameron, vice-president of the Chamber, to extend the thanks of the Chamber to the visitors. Mr. Cameron said that it was a good thing to have such a good friend as Dr. King in the Federal Parliament to look after the interests of British Columbia as well as Canada.

HEMORRHOIDS

Do not suffer another day with itching, bleeding, or protruding piles or hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 6c a box; all dealers. Dr. Chase, Ltd., Toronto. Sample box free.

Spoke at Civic Luncheon To-day

HON. DR. J. H. KING
Federal Minister of Public Works.

J. E. WALSH
Manager of the Canadian Manufacturers' Association.

Cowichan Log Boom On; Output Jumps To Million a Day As Prices Rise

The greatest logging boom that has ever hit Vancouver Island is now under way in the Cowichan and Nitinat Lake district, which is the richest timber belt on the British Columbia Coast, according to information sent to the Parliament Buildings to-day.

The output of logs from Cowichan Lake over the Cowichan Lake line of the C. P. R. has now jumped to 1,000,000 feet a day. This is just twice the total daily shipments early this season.

To cope with the traffic, the C. P. R. has had to put on three complete train crews, running from Cowichan Lake, where the logs are loaded, down to Duncan on the main Island line of the

The recent jump in the price of logs along the Coast has speeded up the production from the Cowichan-Nitinat district. Hemlock logs have now gone to \$10.50 a thousand, fir \$12 and cedar in a market which is especially strong to \$21 and \$23 a thousand.

Vancouver, Victoria, Bellingham as well as the big mill at Chemainus and others up the Island are taking all the Cowichan logs that offer. Full-speed operations are now being carried on in the Cowichan Lake district by the Cameron Logging Co., the Hemmingsen Logging Co., the James Logging Co., the Grossleg Logging Co., the Marsh Logging Co. and a number of smaller concerns.

The big increase in logging production has stimulated the efforts of the promoters of the Cowichan Bay Railway to get their line through from Cowichan Bay to Cowichan Lake to share in the Cowichan-Nitinat timber trade. With the big increase in timber traffic, the Cowichan Lake line is set down as the most profitable unit of the whole C. P. R. system. It is only 18 miles long, cost \$12,000 a mile to build, has no rock cuts, has practically no upkeep costs and handling 1,000,000 feet a day takes in \$1,500 in freights on timber alone. The promoters of the new railroad expect to make big money, especially as the timber production grows even greater. At present, however, they have not been able to consummate their lease of the part of the C. N. R. over which they seek running rights, or some of the lands at Cowichan Bay which they propose to subdivide and sell for a townsite at high prices.

INVITATION EXTENDED TO SIR ARTHUR CURRIE

The presentation of the official report of the Hundred Per Cent International convention at Los Angeles, by Major T. B. Monk was the feature of to-day's luncheon, of the Victoria Hundred Per Cent Club, at the Dominion Hotel.

It was decided at the luncheon to hold next week's affair at the Exhibition Grounds, at the Red Cross luncheon rooms. The directors of the Fall Fair Exhibition are to be invited to the lunch, and Sir Arthur Currie will be extended the invitation of the club to attend the club's luncheon next week. Mr. Parfitt presided at to-day's luncheon.

AGED PLAINTIFF HEARD IN COURT

Michael Finnerty, 94-Year-Old Pioneer of Saanich, Brings Action

The hearing of Finnerty versus Brassard came on before Mr. Justice Gregory in the Supreme Court this morning with A. D. Crease for the plaintiff, Michael Finnerty, and Ernest Miller for the defendant, George Brassard. The action is one by the plaintiff, a 94-year-old pioneer of Saanich, against his son-in-law in which four items are cited in the claim: Trespass, damages for alleged conversion of a motor car and a cow, recovery of principal and interest on a promissory note for \$1,000, and recovery of a loan totalling \$500 in principal and interest.

Before proceeding to the hearing of the case Mr. Justice Gregory gave both principals an opportunity of settling their differences out of court. It distressed him to see family squabbles remarked. Mr. Justice Gregory who had the principals retired to a room by themselves for five minutes. At the conclusion of that time both returned to state that the breach was as wide as ever, and the trial proceeded.

The action was originally started by the plaintiff to remove his son-in-law, George Brassard, the wife of the defendant, and her daughter, from the home of the plaintiff. An injunction to this end was secured and acted upon; from that point until date differences had widened and resulted in the presentation for recovery, stated Mr. Crease in opening the case for the plaintiff.

F. R. Pemberton, financial agent for the plaintiff, was the first witness called. Witness stated he had charge of Mr. Finnerty's business affairs, and that he recognized the promissory note exhibited to him as being executed by the defendant for \$1,000 on demand in October, 1918. This money had been given to the defendant from the Finnerty account

Each bundle washed separately in seven different waters. Bed and table linen ironed and balance returned damp (not wet), ready for ironing.

stated witness. Mr. Brassard had stated to witness that he needed the \$1,000 for taxes, and said he would repay in one month's time, alleged witness. The money had not yet been repaid stated witness.

Cross examined by Ernest Miller for the defence, witness admitted that at one time the defendant had held a partial power of attorney from the plaintiff. Witness admitted as the plaintiff to take away this power of attorney but did not remember what reason he gave.

The plaintiff had conveyed the whole of his property to his son J. Finnerty, stated Mr. Miller, and the son had in turn given a mortgage on this to Mrs. Brassard for \$25,000. The mortgage fell in default by some three months. Witness knew that the interest due on this mortgage had been offered to its holder but was refused, he stated.

Questioned further as to family differences between the principals in the action, witness stated he did not know much as to actual details. Witness had heard of another occasion upon which the defendant had borrowed money from the plaintiff, but that had not passed through his hands.

At this stage Mr. Miller stated his client was ready to hold out the "olive branch" and accept the interest on the mortgage. The offer was refused, Mr. Crease stating the proceedings had got beyond "olive branches."

Michael Finnerty, plaintiff, then took the stand. He was past ninety-four years of age he stated. The defendant borrowed \$500 from him to pay taxes and later secured \$1000 more on a promissory note. The amounts were not paid back, and the defendant had told him he would never pay it back, stated witness. Five years ago the plaintiff had bought a motor car for \$600, he stated, claiming that the defendant had later declared the car to be his and using it. Witness stated, in the course of further evidence, that on one occasion his son-in-law had refused to allow his wife to drive Finnerty to church, and from this time on the car was a source of contention between them. The hearing is proceeding.

Here's the Happy Way to Rid Yourself of Constipation PERMANENTLY!

Bran is the most wonderful health food known! Nine-tenths of human ills would be eliminated if all the people would eat bran regularly, because bran corrects constipation! Constipation can be blamed as the starting point of 80% of the sickness!

Bran is deliciously palatable form—Kellogg's Bran, cooked and krumble—will give permanent relief from constipation if eaten regularly each day. We guarantee that results will prove astounding if at least two table-spoonfuls are eaten daily. Chronic cases should use as much as is needed.

Physicians endorse the use of Kellogg's Bran for constipation. It is not only surely effective as a permanent relief if eaten regularly, it is the ideal way to correct constipation through food!

The big thing is to get Kellogg's Bran into your system quickly! Get it at your grocer's. It's wrapped "WAXED". P. S.—Pimples are caused by constipation. Kellogg's Bran will clear them up and also free your breath from intestinal odors.

BUCKSTONE, ACTOR,
DIED IN ENGLAND

Was in Old Country on Holiday from U. S.

London, Sept. 15.—Rowland Buckstone, actor, died at a nursing home to-day. He came to London from the United States about two weeks ago on a holiday and almost immediately fell ill. The body will be buried at Chiswick Saturday.

Buckstone was born at Rydenham, Kent, England, in 1860 and first appeared on the stage when 17 years old. Buckstone's father also was an actor. During his long career he became well-known both in the British Isles and the United States.

PSYCHOLOGY A BOON
SAYS DR. R. S. BAKER

Seattle, Sept. 15.—Dr. R. S. Baker, of Victoria, insurance man and prominent member of the Psychological Society there, was greeted by a large audience when he addressed the Society of Applied Psychology in A. O. U. W. Hall. His subject was "What Applied Psychology Has Done for the World."

"I find that interest in psychology in America is increasing by leaps and bounds," said Professor Baker. "Book stores and libraries report a tremendous demand for works along this line at especially on psychology. The success of Emile Coue, the celebrated French psychologist, in healing prominent Englishmen, English women leaders and shell-shocked soldiers in London, has created a sensation. In psychology lies one of the hopes of the world."

CHEAPER APPLES
FOR THIS COAST

Plans of Okanagan Growers Announced in Vancouver

Vancouver, Sept. 15.—Two boxes of apples in 1922 for the same price as one box in 1921. This was the announcement made by Thomas Bulman, of Kelowna, the prominent Okanagan fruit man and manufacturer, at a dinner of the Canadian Manufacturers' Association in the Hotel Vancouver last evening. After two or three days of close conference with wholesale and retail fruit men of Vancouver, Mr. Bulman said he was in a position to announce that Okanagan fruit would be marketed at the coast this year at a minimum of cost to consumers.

As an instance, he said, banners were being printed announcing the price of \$2.50 per box for Macintosh Reds No. 1 at the individual purchaser's front door.

TO IMPROVE LOT
OF DEFECTIVES

Toronto to Care for People Below Average of Intelligence

Toronto, Sept. 15.—Urged by Dr. C. J. O. Hastings, Toronto Medical Officer of Health, the Toronto Board of Health has decided to take steps at once to deal with the problem of mental defectives. Dr. Hastings desires the establishment of colonies in various places where mental defectives can be housed and cared for.

YOUNG WOMEN
OF KILLARNEY
PAINTED GREEN

Belfast, Sept. 15.—South Irish ad- vices assert that the homes of six young women of Killarney known to be in sympathy with the republic- ans were visited by armed and masked men, who found the young women in their beds and painted their bodies green.

GIRL SAVED THREE
BUT LOST LIFE

Beirut, Syria, Sept. 14.—A remarkable story of self-sacrifice in which a fourteen-year-old girl gave her life to save three companions has been received here by the American Committee of Relief in the Near East.

While 500 children were bathing in the Mediterranean near an orphanage near Ain Tylos, three small boys were carried beyond the safety ropes into a dangerous whirlpool. Ruth Manogis, the only other person within helping distance, swam to the edge of the maelstrom and succeeded by almost superhuman effort in rescuing all the lads and carrying them to a rock. Then she collapsed from over-exertion and died before a life boat reached her.

SUIT BROUGHT BY
SIR J. LOUGHEED

Calgary, Sept. 15.—Sir James Lougheed, Senator, has commenced an action in the Supreme Court against all former members and partners of the now dissolved law firm of Lougheed & Bennett, in which he demands not only an accounting, but also a declaration of the court that the firm is legally dissolved, Senator Lougheed asks that the accounts be taken and the affairs of the old firm wound up and adjusted and recommends the appointment of a receiver.

MONTREAL MAN
DROWNED HIMSELF

Montreal, Sept. 15.—Weighted down with stones stuffed in the coat and trouser legs and with heavy iron bolts in the pockets, the body of Constantin Meracos, 68, was found in the St. Lawrence River yesterday. The man, it is said, had suffered from loss of memory.

CATTLE SHIPMENT
GAVE DIFFICULTY

Ontario Farmers Found British Quarantine a Bar

Brought Jersey Cattle Across the Atlantic

Toronto, Sept. 15.—That the cattle quarantine regulations in Great Britain are being drastically enforced to prevent the spread of foot and mouth disease may be judged by the experience of B. H. Bull & Sons, of Brampton, who were obliged to engage space in two steamships to transport from the Jersey Islands to Canada a shipment of Jersey cattle which reached Quebec on the steamship Batavia yesterday.

The cattle had to be transferred in the English Channel after their departure on a second steamer from the Jersey Island to the Batavia, the latter steamship being obliged to continue the voyage without touching a port on the other side of the Atlantic. It was also stipulated that the cattle should be transferred from one ship to the other in specially constructed crates. This done, the crates had to be destroyed.

NO POLAR FLIGHT
BEFORE NEXT YEAR

Latest Report Amundsen to Winter at Wainwright

Nome, Alaska, Sept. 14.—Information from a reliable source received here yesterday was to the effect that Captain Roald Amundsen, Norwegian explorer, would not attempt this year his promised aeroplane flight across the North Pole to Greenland, as was reported in recent dispatches from Copenhagen. Captain Amundsen, who was last reported at Wainwright, 109 miles southwest of Point Barrow, Alaska, plans to spend the Winter there, according to this information.

ROBERT BAXTER
WORKS IN MINE
IN NOVA SCOTIA

Sydney, N. S., Sept. 15.—Robert Baxter, veteran United Mine Workers' leader, has gone back to active work in the mines, being employed at shift working.

SEATTLE PORT
DEFICIT LOWERED

Seattle, Sept. 15.—The Seattle port commission has fixed its budget of funds, to be raised by taxation, to make good deficits in operating revenue and to pay interest and principal on bonds at \$360,371.84 for next year. This is \$27,608.16 less than the corresponding budget for this year, but the levy, one mill, will be the same.

BANK OF ENGLAND'S
WEEKLY STATEMENT

London, Sept. 15.—The weekly statement of the Bank of England shows the following changes: Total reserve increased £28,000, circulation decreased £318,000, bullion increased £8,428, other securities decreased £5,322,000, other deposits increased £1,986,000, public deposits increased £2,130,000, reserve increased £22,000, government securities increased £3,305,000. The proportion of the bank's reserve to liabilities this week is 19.22; last week it was 18.37 per cent. Rate of discount 3 per cent.

CANADA EXPORTS
LESS ELECTRICITY

Ottawa, Sept. 15.—The total amount of electrical power exported from Canada to the United States during the financial year ended March 31 was 861,547,132 kilowatt hours, being a decrease of 157,996,828 kilowatt hour as compared with the previous year.

THE NEAR EAST.

From the mass of cabled news that is reaching this country from Europe it is difficult to speculate upon the outcome of Turkish successes and the demands and threats that are following one another with startling rapidity. The Allied point of view and the overwhelming sentiment as expressed by the leading Allied newspapers seems to be fairly harmonious in a determination to preserve the freedom of the Dardanelles. Some division of opinion already is beginning to appear in respect of the future of Constantinople. While a number of the London journals insist that there must be no question of restoring the old capital of the former Ottoman Empire to the Turks, not a few of the influential dailies take the position that Great Britain's chief interest centres upon the fate of the Straits. Her instructions to the fleet to prevent any movement from Asia to Europe confirms this view.

It goes without saying that the situation is just about as delicate as any which has been created since the dark days of 1914. But it does not follow that another Sarajevo and its consequences are inevitable. Mustafa Kemal Pasha is in a strong position from a military point of view and would find it comparatively simple to effect a spectacular coup—even to the point of taking Constantinople by force. Allied troops are nothing like numerous enough to prevent a move of this kind. The best that can be said from a purely military point of view is that the Anglo Government certainly understands that it is in no position to defy joint action by Great Britain, France and Italy. And this may be expected if there is any attempt to force too fast a pace.

Russia's note to the British Government is not a surprise. Moscow can be depended upon to seize the first opportunity to make trouble. Its suggestion that the question of the Dardanelles be disposed of by the countries bordering on the Black Sea is just as stupid as most of the ideas that come from the Soviet domain. No group has any right to monopolize it. In the meantime it may be expected that the Western powers, or most of them at least, will develop a plan whereby the general situation may be relieved of some of its gravity. This is one of the times when Anglo-Saxondom misses the practical co-operation of our neighbor to the South.

DR. KING'S VISIT.

During the short period which has elapsed since Dr. King assumed the portfolio of Public Works in the Liberal Cabinet at Ottawa he has given ample proof of his good intentions towards British Columbia. As the sole representative of this Province in the Dominion Government, and more especially no doubt because of his previous relationship with the Oliver Administration, he naturally has a soft spot for this part of the country. On the other hand he can be depended upon to discharge the duties of his office from the standpoint of national welfare and national needs. In so doing he will at all times be assisted by the large fund of practical knowledge and experience which he assembled as a Minister in the provincial field.

Victoria finds particular pleasure in welcoming Dr. King for the first time since he was sworn in as a member of the Liberal Administration at Ottawa. This community recalls with no mean amount of satisfaction the practical attitude which the Minister of Public Works adopted in connection with the project at Skinner's Cove. In the face of a good deal of opposition from interests that were swayed more by the arguments of sectional advantage than they were

by those of simple economics Dr. King was able to persuade his colleagues to authorize the continuance of the drydock, not only because it would be foolish policy to leave a worthless hole in the ground at a cost to the country of something like two millions of dollars; but because his belief in maritime development on this coast warranted the course which he recommended.

While Dr. King is in the city he will discuss other matters of interest and concern to this community. His familiarity with the various projects on which the national Government already has expended a good deal of money will obviate the necessity for anything more than a cursory examination. The desirability of developing the Outer Wharves in order that they may get an opportunity of justifying their existence is an old subject; but the Minister's visit at this time will serve to remind him that we in Victoria are looking to him to use his influence in this connection. Our case is obviously in good hands and Dr. King's own interest in British Columbia as a whole is a guarantee of efficient and fair representation in the inner councils at Ottawa.

GERMANY REFUSES.

Germany has refused to deposit the 100,000,000 gold marks with Belgium as a guarantee that her note to the prior credit will be met when it shall fall due. This action transfers the whole question of reparations from the Commission to the Allied Governments and conditions are very much as they were before the recent Belgian plan was thought to be a temporary solution for Germany's default in her monthly payments.

Either Germany cannot pay or will not pay. Each time she refuses to meet her obligations, whether from sheer inability or calculated obstinacy, she gains a point and a breathing space and adds to France's suspicion of her motives. There follows the threat of penalties and the mark takes another tumble. All of which suggests once more that the sooner the Allied and Associated Powers get together and talk over the question of war debts in their entirety the sooner can all this nonsense of attempting to collect non-existent money be forgotten and the world given an opportunity to get back to work. Meanwhile there is a little affair growing in the Near East.

STARVING FOR A SUBJECT?

Geneva is expecting Mr. Lloyd George to take part in the deliberations of the League of Nations next week. But one of the correspondents is at a loss to know what he will talk about when he arrives. It is pointed out that the situation in the Near East is not ripe enough for discussion and that the disarmament question will have been passed upon in its entirety by the committee delegated to deal with it. On the other hand we are told that the Austrian question and the economic situation in Central Europe will probably be selected by the British Prime Minister as matters of moment for him to discuss.

The source of inspiration for this guess at the part of the agenda which Mr. Lloyd George is expected to select for his star turn is not clear; but it may as well be said that if the Prime Minister is going to Geneva to talk about Austria and certain economic phenomena in Central Europe he might as well go down to Criccieth and write another chapter of his memoirs. That little fellow who goes by the name of taxpayer will hope that the last remaining war Premier will at least talk about disarmament. With the nations agreed to get out of armor all their other troubles would soon pass away.

NOTE AND COMMENT

German reparations and all the question involves will become a back number if a real flare-up should follow the present Greco-Turkish war.

What a jolt Mustafa Kemal Pasha would get if the United States were to throw in her lot with Great Britain in a campaign to clean up Europe! One joint note with a real "kick" in it would bring about a quick

change among the peppery peoples of the Balkans.

Europe's Prime Ministers have had plenty of practice in the gentle art of escaping from crises. They are now face to face with one that will require very delicate handling.

We are informed by a correspondent who objects to the School Board's segregation plan that God made the Occidental and the Oriental. He also made the lion and the lamb; but the latter advances no equality of status.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legible. The longer the letter, the more likely it is to be discarded. Communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is at the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

SEGREGATION.

To the Editor.—In reference to Chinese school correspondence, it strikes me as rather rough on our loyal Chinese citizens. It is said that they do not mix with the European stock; therefore, why make it almost impossible for them to? If they were not wanted in Canada, they should not have been admitted into the country. Now that they are here, I personally, do not see why their children should receive different treatment from the other nationalities which make up our nation. Many people whom I have spoken to about this matter are of the same opinion. God made Oriental and Occidental. Why discriminate?

MR. BUCHANAN'S LETTER

To the Editor.—With respect to Mr. G. O. Buchanan's letter in your issue of Saturday, and your comments thereon, I agree with you that, having asked by referendum the views of the electorate on the question of Government Control of sale of liquor, consistency required the Government to undertake that most serious job, even if they could not justify themselves morally or economically. The trouble seems to be that the Government did not weigh the question in moral and economic scales at all, otherwise such a referendum for sure Mr. Buchanan is quite right in stating that, on either moral or economic grounds, the "sale" of liquor to the public is "wrong."

I do not agree with you and I am sure very few independent and unbiased thinkers will—that the "people's instructions" are being carried out. In the referendum campaign, the "emphasis" was placed on the "sale" of liquor to the public, almost entirely on the great catchword "control," and, in spite of its essential absurdity as related to the drink trade, it "caught on," while the "sale" part of the proposal was earnestly crowded into the background. It was control, mainly that the people asked for. But now—as you know, Mr. Editor, and everybody knows, and the prohibitionists unanimously agree, in any case of limitation of drinking, or reduction of the evils of drinking, is simply not on the programme, while sale is pushed for all it is worth. How long, I wonder, are the electorate going to allow the stupid and destructive force to continue?

WM. ELLIOTT.

SEGREGATION

To the Editor.—As a missionary to the Chinese, permit me, please, to say a few words on the above controversy about the Chinese in Victoria, which has been heatedly debated against them. I wish to say that the attitude taken by these people is both unchristian and inconsistent. It is unchristian because it is not in accordance with the teaching of Christ, who taught "Brotherly Love," and it is inconsistent because while these people are crying "Can't have the Chinese here," yet the Chinese are employed by the whites. The latest move is the segregation of the Chinese children in the schools. I wish to emphatically state that this move is a howling injustice and will do more to put a stir on the name of "Canada" than anything that has yet been done. Here is absolutely no earthly reason why the Chinese children should not mix with those of the white people. They are good healthy children and, I might here state that the recent talk of their being dirty is pure unadulterated bunkum, and let me further state that I have worked amongst these children so I know what I am talking about.

The Chinese are a perfectly law-abiding people, living amongst us, they carry on their business in a perfectly legitimate way and I cannot see why they should be treated as a class of inferior beings. The ill-feeling if any should be on the other side. The Chinese have every right to compete. They have to pay \$200 head tax before they can set foot in the country. What privileges do they get for that? Not one. They are not even permitted to vote and by the way I read that the Hindu may get the franchise before very long. You say they are not British subjects—Gammion! Most of the Chinese here were from under "The British Flag." If that is not good enough I don't know what is. In the days of my childhood I was taught that where ever "The Union Jack" flew there "Freedom" abode. Evidently I must conclude that Canada

is an exception to the rule. In no other country are the Chinese treated in the servile way they are here in Canada. The white man is treated with the utmost courtesy. Why, may I ask, should we not do the same to them?

What I cannot understand is, as my friends in the work, the Rev. Leung Mei Fong and the Rev. Y. N. Kwan say in their most masterly letter, that the hostility is only directed against the Chinese and not against any other non-English-speaking race. Why is this? Can anyone tell me? I should so like to know. In conclusion I wish it to be plainly understood that of non-Chinese brethren is an absolute disgrace to a Christian nation, and not only that, but it is dragging the British flag in the dirt and degrading Canada in the eyes of the world. If the British in China were treated as the Chinese are treated here, do you think we would send a gun boat over? You bet we would. It is a wonder to me the Chinese Government have not done something of the kind.

IMMIGRATION
CHIEF QUESTION

Canada's Greatest Task, Says
C.P.R. President

Beatty Passes Through Winnipeg on Way West

Winnipeg, Sept. 15.—Declaring the most vital question with which Canada has to deal at present is that of immigration, both of people and capital, E. W. Beatty, president of the Canadian Pacific Railway, discussed both these questions here last night.

He stated he could see no reason why there should be a railway strike in this country, and asserted that from advice he had received during the day he thought the situation in the United States was now clearing up.

Increased Interest.

Going into details of the question of immigration, he said that the most encouraging indication at the present time would appear to be the general interest taken in probably the most vital question in Canada, namely, the immigration to Canada. For the past day of a year, the press has dealt aggressively with the subject of immigration, and to his mind, I think, will be a long discussion and that many amendments will be proposed. It is expected that the constitution

Capital.

"Almost equally important is the immigration of capital, and our energies should be directed to exploiting the advantages and wealth of this country, making them known in those countries where capital is available and whose holders believe that under Canada's laws and constitution, their investments will be given the encouragement and the protection which they deserve. The wealth of this country lies in its ground, and it is hoped that by the joint labors of money and men, and from this development must follow wider markets and industrial expansion which we have as much right to expect as did the United States at close of the Civil War, when their population was over three times that of Canada."

Great Crop.

"It is quite idle to assume that we have reached pre-war conditions as to industry or labor; there is nothing in the situation which should excite misgivings. It was only to be expected that in the progression towards normal conditions there should be periods of temporary halt and further inflation. We could scarcely anticipate an uninterrupted deflation over a period of years. The hopeful phase of the situation is due to the fact that we have a tremendous crop of which it is hoped will be marketed readily and at fair prices. If these anticipated results are secured we should start the next calendar year in a much more favorable position than existed in January of the present year. The necessity for economy has not passed; but the financial situation is clearer and stronger, and the most difficult period has been successfully passed and confidence in the future should be high."

"It will be the duty of the transportation companies to keep pace with this progression, and so far as the Canadian Pacific is concerned I do not hesitate to say that they will do there full share to provide the necessary extensions and increased facilities which the trade of the country warrants."

Oriental Trade.

"In this period of expansion the possibilities of increased Canadian business in the Orient should not be overlooked. Adequate transportation now exists, the reputation of the country is excellent and the desire to do business with Canada is increasing. Our manufacturers and importers should take full advantage of this extensive market, the value of which should not be lost to our competitors in other countries."

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Daily Times, Sept. 14, 1897.

Shenandoah, Pa., Sept. 13.—A mass meeting of 4,000 Lutharians, Poles, Hungarians and Slavonians was held on the grounds of the Lutheran Church here last night to take action on the Latimer shooting.

Ottawa, Sept. 14.—Sir Oliver Mowat has intimated to Sir Wilfrid Laurier his willingness to accept the Lieut.-Governorship of Ontario if Hon. David Mills is appointed Minister of Justice so that Ontario would not lose the portfolio.

Denver, Col., Sept. 14.—A head-end collision occurred at 1 o'clock this morning a mile west of Newcastle between a Denver and Rio Grande passenger train and a freight of the Colorado and Midland. Details of the wreck are very hard to obtain.

will be carried by the Government majority, but the debate probably will last for more than a month of continuous sittings.

When the constitution is disposed of the Government will introduce the new franchise bill, extending the vote to all adults, male and female. This will extend the suffrage possibilities enormously. An election on the new franchise will take place in March and the permanent Irish Parliament will be summoned for the following month.

PLAN FOR FALL STYLE SHOWING

Merchants Prepare for Elaborate Displays

P. B. Scurrah, R. B. Price and William Maynard, the committee of the Retail Group of the Chamber of Commerce, appointed to investigate the possibility of a Fall Style Show have decided that time did not permit of preparation for such an undertaking.

In its place the merchants will stage a Fall Opening week coupled with intensive advertising.

A meeting to discuss the plan for the affair has been called for Thursday next. Special window displays and intercity advertising will be a feature of the event.

NEW B. C. COMPANIES.

Companies granted incorporation at the Parliament Buildings to-day are: Davidson, Wright & Alcock, Ltd., \$10,000, Vancouver; Campbell, Ltd., \$250,000, Vancouver; Transpacific Lumber Co., Ltd., \$10,000, Vancouver; Greenwood Masonic Holding Co., Ltd., \$10,000, Greenwood; Vancouver and Suburban Agency Corporation, Ltd., \$10,000, South Vancouver; Childers Johnson, Ltd., \$50,000, Vancouver; Grindrod Recreation Park, Ltd., \$10,000, Grindrod; Leslie Coal Co., Ltd., \$10,000, Vancouver; Beaton & Hemsworth Logging Co., Ltd., \$40,000, Vancouver; Hatzie Development Co., Ltd., \$25,000, Vancouver; Superior Fishing & Packing Co., Ltd., \$10,000, Vancouver.

H.G. WELLS' FAMOUS OUTLINE OF HISTORY The Romance of Mother Earth

TO-DAY'S INSTALMENT—5

The Peculiar Thing Called Life

Now here it will be well to put plainly certain general facts about this new thing, life, that was creeping in the shallow waters and intertidal muds of the early palaeozoic period, and which is perhaps confined to our planet alone in all the immensity of space.

Life differs from all things whatever that are without life in certain general aspects. There are the most wonderful differences among living things to-day, but all living things past and present agree in possessing a certain power of growth, all living things take nourishment, all living things move about as they feed and grow, though the movement is more than the spread of roots through the soil, or of branches in the air.

Moreover, living things reproduce; they give rise to the other living things, either by growing and then dividing or by means of seeds or spores or eggs or other ways of producing young. Reproduction is a characteristic of life.

No living thing goes on living forever. There seems to be a limit of growth for every kind of living thing.

A LIMIT OF GROWTH

Among very small and simple things, such as that microscopic blob of living matter the amoeba, an individual may grow and then divide completely into two new individuals, which again may divide in their turn. Many other microscopic creatures live actively for a time, grow, and then become quiet and inactive, enclose themselves in an outer covering and break up wholly into a number of still smaller things, spores; which are released and scattered and again grow into the likeness of their parent.

Among more complex creatures the reproduction is not usually such simple division, though division does

occur even in the case of many creatures big enough to be visible to the unassisted eye. But the rule with almost all larger beings is that the individual grows up to a certain limit of size. Then, before it becomes unwieldy, its growth declines and stops.

THE NECESSITY OF DEATH

As it reaches its full size it matures, it begins to produce young, which are either born alive or hatched from eggs. But all of its body does not produce young. Only a special part does that. After the individual has lived and produced offspring for some time, it ages and dies. It does so by a sort of necessity. There is a practical limit to its life as well as to its growth.

These things are as true of plants as they are of animals. And they are not true of things that do not live. Non-living things, such as crystals, grow, but they have no set limits of growth or size, they do not move of their own accord and there is no stir within them. Crystals once formed may last unchanged for millions of years. There is no reproduction for any non-living thing.

This growth and dying and reproduction of living things leads to some very wonderful consequences. The young which a living thing produces are either directly, or after some intermediate stages and changes (such as the changes of a caterpillar and butterfly), like the parent living thing. But they are never exactly like it or like each other. There is always a slight difference, which we speak of as individuality.

A thousand butterflies this year may produce two or three thousand next year; these latter will look to us almost exactly like their predecessors, but each one will have just that slight difference. It is hard for us to see individuality in butterflies because we do not observe them

very closely, but it is easy for us to see it in men. All the men and women in the world now are descended from the men and women of A.D. 1800, but not one of us now is exactly the same as one of that vanished generation.

And what is true of men and butterflies is true of every sort of living thing, of plants as of animals. Every species changes all its individuals in each generation. That is true of all the minute creatures that swarmed and reproduced and died in the archaean and proterozoic seas, as it is of men of to-day. Every species of living things is continually dying and being born again, as a multitude of fresh individuals.

Consider, then, what must happen to a new-born generation of living things of any species. Some of the individuals will be stronger or sturdier or better suited to succeed in life in some way than the rest, many individuals will be weaker or less suited. In particular, single cases any sort of luck or accident may occur, but on the whole the better equipped individual will live and grow up and reproduce themselves, and the weaker will as a rule go under.

HOW NATURE PICKS US OVER

The latter will be less able to get food, to fight their enemies and pull through. So that in each generation there is as it were a picking over of a species, picking out of most of the weak or unsuitable and a preference for the strong and suitable. This process is called natural selection or the survival of the fittest.

LOOKING TO THE FUTURE

Shopman—"You can't get these boots on. You should try a size larger."
O'Rafferty—"Never do you mind. O'R'll be able to get them on after O'll wear them a toin or two."

METCHOSIN FAIR A GREAT SUCCESS

Fine Exhibits of District Well Displayed

Opening Speech Made by the Minister of Agriculture

(Times Correspondence)

Metchosin.—The first day of the Metchosin Fall Fair was exceptionally successful.

The fair was opened at 2 p.m. yesterday by Hon. E. D. Barrow, Minister of Agriculture, who congratulated the district upon the splendid show, stating in the course of his address that he had just visited the New Westminster fair, but had found nothing to beat the Metchosin exhibits.

E. H. Pooley, M.P.P., also spoke a few words of congratulation to the exhibitors.

The speakers were introduced by C. E. Whitney-Griffiths, president of the Metchosin Farmers' Institute, under whose auspices the fair was organized.

The institute is to be congratulated upon the extraordinary success of the first day of the event.

The fruit and vegetable exhibits occupied two long tables the length of the main hall, while one whole side was filled with jams, jellies, honey, etc., and a special exhibit from the Metchosin District Fruit Growers' Association. The stage was filled with a fine exhibit of flowers, and the cooking and butter and milk exhibits were displayed on a large table in front of the stage, across the width of the hall. The women's section, containing women's work, occupied the whole of the committee room. All the exhibits were displayed to the best advantage by H. G. Pierce, convenor of the reception committee.

The judges were Mr. Anketell-Jones, of Chemainus, Mrs. Bonavia and W. J. S. Pye, who judged the stock and gave a demonstration of judging in the fair grounds.

Prize List.
Prizes were awarded as follows:

Potatoes, up-to-dates—E. F. Higgs, A. Deveson.
Potatoes, any variety—Whitney-Griffiths Bros., Wallis Pears.
Tomatoes, six ripe—George Ball, Holycrest Nurseries.
Green Tomatoes—Wallis Pears, Holycrest Nurseries.
Carrots—F. C. Blake, H. James.
White field carrots—Mrs. Cann, special first.

Lettuce—H. James, Wallis Pears.
Beans—Wallis Pears, F. Batchelor.
Peas—Whitney-Griffiths Bros., awarded to one entry.
Onions—F. C. Blake.
Artichokes—Mrs. Cann, Wallis Pears.
Citron—Wallis Pears, F. C. Blake.
Muskmelon—Wallis Pears, D. M. Bullen.
Watermelon—G. D. Sloan, Wallis Pears.
Squash—Mrs. W. Withy, F. C. Blake.

Beets—T. Barclay.
Rhubarb—F. C. Blake (Metchosin Fruitgrowers' Association), G. D. Sloan.
Corn—Gavin Weir, F. Reid.
Table Turnips—George Ball.
Field Turnips—R. Brown.
Vegetable Marrow—Wallis Pears, G. F. Weir.

Mangels—Mr. Luky, R. F. Oliver.
Cabbages—Mr. James, D. M. Bullen.
Brussels Sprouts—Only second prize awarded to Wallis Pears.
Cauliflower—Wallis Pears.
Kale—E. F. Ashe, D. M. Bullen.
Table Corn—Mr. Wishart, F. G. Weir.

Domestic Science.
The domestic science section was judged by Mrs. Bonavia.
Bachelor's Loaf—Gordon Cobb.
Best White Bread—Mrs. Cann, Mrs. Wallis Pears.
Best Loaf by Any Woman—Mrs. E. Ashe.
Dinner Rolls—Mrs. G. F. Ashe, Lady Walker.
Collection of Cookies—Mrs. G. P. Ashe, Mrs. E. Hall.
Currant Loaf—Dr. and Mrs. C. Brown, Mrs. Snider.

Baking Powder Biscuits—Mrs. Deveson.
Lemon Pie—Mrs. E. P. Ashe awarded second prize.
Sponge Cake—Mrs. Deveson, Mrs. H. R. Brown.
Layer Cake—Mrs. Deveson, Mrs. Lee Field.
Bread—Mrs. Deveson, Mrs. R. Reid.
Chocolate Cake—Mrs. A. Bradford, Mrs. Snider.
Fruit Cake—Mrs. Reid, Mrs. Reid.
Brown Bread—Mrs. Lee Field awarded second prize.

Dairy Produce:
White Eggs—T. Barclay, Mrs. R. Mathews.
Brown Eggs—F. W. Baker, Mr. Van der Byl.
Dressed Fowl—Miss C. Blake.
Butter—Mrs. Richards, Mrs. W. Pears.
Women's Section.
In the women's section of needlework the following awards were made:

Knitting, any article—Mrs. Cann, Lady Walker.
Article Made From Flour Sacks—Miss E. Alden, Mrs. Baxter.
Crochet, any article—Mrs. H. R. Brown.
Dressed Doll—Miss G. Snider.
Darning—Mrs. Altree-Coley, Mrs. T. Barclay.
Collection of Yokes—Mrs. G. F. Weir.
Best Local Grown and Spun Wool—Mrs. Tocher.
Crochet Trimmed Bedsheet—Mrs. Baxter.
Crochet—Mrs. G. Weir.
Table Centre—Mrs. G. Weir, Mrs. A. Welsh.
Home-Made Dress—Mrs. C. P. Brown.
Tattooing—Mrs. I. Cooh, Mrs. G. Weir.
Embroidered Teacloth—Mrs. Luky.
Miss Higgs.
Irish Crochet Lace—Mrs. G. Weir.
Silk Embroidery—Mrs. Baxter, Mrs. O. Weir.
Silk Embroidery on Linen—Mrs. McCroight, Miss James.
Trimmed Traycloth—Mrs. G. F. Weir.
Hand-Made Lace—Mrs. Altree-Coley, Mrs. C. P. Moncton.
Any Hand-Made Article—Mrs. Moncton, Miss P. Brown.
Hat—Mrs. Reid, Mrs. Hall.
Bottled Fruit—Mrs. C. Brown, Mrs. F. C. Blake.
Jelly—Mrs. C. Brown, Mrs. Lee Field.

A special prize was awarded to the field crops for bottled fruit.
Marmalade—Mrs. W. Pears awarded second prize.
Pickles—Mrs. T. Barclay.
Mixed Pickles (Special)—Mrs. Deveson.
Honey—O. W. Legge, F. F. Higgs, who also gained a special prize for the best collection of honey.
Canned Vegetables—Lady Walker.

WILDEPARK WHEN TITLE CLEAR

Oak Bay Prepared to Deal With Newly-Acquired Area in Progressive Manner

At the regular meeting of the Oak Bay Council last night it was decided that a first prize of \$200 and a second prize of \$50 will be given for the best plans submitted to the Oak Bay Council for the development of the Oak Bay Park into a suitable park and playground. The competition will be commenced as soon as the title is secured.

The purchase was authorized by the ratepayers' meeting. Mr. Simmonds has been retained to make surveys in connection with the closing of certain street lines for which an order-in-council will be sought. All plans in connection with the disposition of the park as a municipal asset are in abeyance until the title has been regularly transferred under the present agreement of sale.

The Victoria Rugby Club last night obtained permission to make use of the park, after municipal ownership has been consummated at the rate of \$5 per acre, and the payment of policing as usual.

The third of a series of subdivision plans in connection with the title was put through.

An application from a resident of Saanich for permission to have his house joined up to the Oak Bay house received and while the Council was prepared to discuss the question it was felt that the matter would have to be one of a mutual arrangement between municipalities. Reeve Drake promised to take the matter up with the Saanich authorities in person.

Our wages are the highest paid in any shop in Canada—and yet we keep the price down.

A finished salesman in a fashion shop could readily get twice the price of a ready-made suit for one that is "Semi-ready tailored," but the price label on the pocket based on the cost of the cloth, keeps the price uniform and fair.

"Any man who buys a Semi-ready suit can look for himself and see the actual value of the suit placed there by the men who bought the cloth and made the garment."

"The man who buys a Semi-ready suit must know more about cloth materials, workmanship and color suitability than the ordinary clever talker of the store. He must know for in the Semi-ready store one meets the men who are particular about their dress and appearance."

Complete Tailor Service.

"There is no garment for men who make the highest attention to the scarlet golf coat to the business, professional or wedding suit."

"In our fashion portfolio we often show thirty different styles in a season."

"We still make frock coats for ministers and we make clerical garb of the web, but which is quite distinguished and pleasing when tailored into a well-fitting garment."

"In fact, the new outdoor designs in suits are attracting attention that the fancy patterns and weaves are not now the whole thing in the tailoring world."

"I know men, big men of affairs, who always prefer the neat and plain cloth, and who depend altogether upon the skill of our tailors for that air of distinction and neatness which is the mark of the well-dressed man."

Many Business Suits.

"It is the attention to detail which marks the good tailor. Now, we make twenty different styles in business suits, yet there may be only a trifling difference in some. One may have a shorter lapel, the other a different shaped notch in the collar, or perhaps a different curve in the front of the shirt."

An Overcoat is Important.

"It was in the making of overcoats that the Semi-ready Company achieved their first big triumph."

"Making clothes on the scientific principle of the system, the perfect overcoat was found to have perfect shoulder-fitting, combined with graceful draping, and to-day it is only the older man who lingers in the past who would think it necessary to order an overcoat from the retail tailor. The Semi-ready shop can show so many styles—in both suits and overcoats and fall top coats—that their system is invariably chosen."

Cheaper Than in England.

"One can buy a Crombie overcoat in a Semi-ready shop for \$75 which costs \$125 in England. In other words, the wholesale system of tailoring to measure overcomes both duty and sales tax on the imported overcoat."

It has been said that Canadian apples can be bought in Liverpool cheaper than in Canada, where they are grown. In our shops we make and sell "King's Own" Berries—a pure Botany wool yarn and a fast indigo dye cloth of fine, soft texture—at a price less than it can be bought in England, where the cloth is woven.

"It is just as easy for us to tailor clothes on exact English lines, just as we do with our English Raglan top coats, but we can, and do, insert in the garments finer lines and more finished tailoring."

Riding and Ski Breaches.

"It was an English officer who complimented us on our riding breaches, just as it was an English golfer who said Semi-ready golf coats were a perfect study in athletic tailoring. For both men and women we tailor ski breaches. This winter sport has taken a firm hold in Canada—the Land of Hills, Lakes and Dales—where we have ten months of perfect weather and no cyclones, earthquakes or abnormal upheavals."

"We can make any coat that any man can describe—that is our idea of Semi-ready Service—and we will make our label a real seal of satisfaction."

Mearns & Fuller have the exclusive sale in Victoria of Semi-ready tailored clothes. Their store is at the corner of Douglas and View Streets.

THE NIPPON YUEN KAI MARU, on route from Kamchatka to Europe with canned fish, hides and furs, will call at Nanaimo for bunkering, being due to pass up on September 21.

HOW MEN CAN IMPROVE THEIR APPEARANCE

By Choosing Cloth and Clothes That Will Give Their Individuality

The Chief Designer of Semi-ready clothes is more than a mere student of anatomy and of physical conformation. In a recent newspaper article he said:

"In the army you can tell an officer from a private by his clothes. An officer's uniform is well-tailored and fits him, whilst the uniform of a private is frankly ready-made in the cheapest way by careless workmen."

"In our workshops we made thousands of uniforms for officers in the Canadian army, and some few for American officers, but our organization did not permit of cheap construction."

"A man can improve his appearance by wearing well-fitting clothes—not necessarily expensive clothes."

"One can see the difference on any street of the officer type of clothing and that of the private. The latter live up to their environment. A cheaply-constructed and ill-fitting suit must of necessity have a menial effect on the wearer. Few men will live up to their environment. A man must of necessity have a menial effect on the wearer. Few men will live up to their environment. A man must of necessity have a menial effect on the wearer. Few men will live up to their environment."

"There is class and distinction woven into a suit of clothes—an individuality which expresses the attitude of the wearer. Few men will live up to their environment. A man must of necessity have a menial effect on the wearer. Few men will live up to their environment. A man must of necessity have a menial effect on the wearer. Few men will live up to their environment."

Expert Work, Yet Price is Held Down.

"Our wages are the highest paid in any shop in Canada—and yet we keep the price down."

"A finished salesman in a fashion shop could readily get twice the price of a ready-made suit for one that is 'Semi-ready tailored,' but the price label on the pocket based on the cost of the cloth, keeps the price uniform and fair."

"Any man who buys a Semi-ready suit can look for himself and see the actual value of the suit placed there by the men who bought the cloth and made the garment."

News from the Ocean Lanes

FISHERIES OFFICIAL VISITING VICTORIA

Deputy Minister A. Johnston Here from Ottawa

Deputy Minister A. Johnston of the Dominion Marine and Fisheries Department at Ottawa, is in Victoria to-day on departmental business, with special attention to the conditions existing in the salmon fisheries as revealed to the Federal Parliamentary Fisheries Commission at its sessions here last week.

Mr. Johnston was met at the Empress Hotel by a large number of cannery operators and several fishermen also sought interviews with the Deputy Minister.

Mr. Johnston was yesterday present at the joint session in Vancouver of the Fisheries Commission and the Washington State Fisheries Board, when representations were made by cannery operators and fishermen in the maintenance of the salmon fisheries in the Pacific Northwest.

Mr. Johnston will leave for Vancouver this evening, but will again be in Victoria early next week.

STEAMSHIP NEARLY CAPSIZED AT DOCK

Lumber Laden Japanese Liner in Trouble

Tacoma, Sept. 15.—The Japanese steamship Azumasan Maru, Capt. Weint Matsuo of the Mitsui Line, narrowly escaped turning turtle at the port lumber pier on Wednesday. When the ship decided to lunge there was a lively movement among members of her crew, Japanese streaming from every section of the vessel to the dock.

The Azumasan Maru had on board 3,200,000 feet of lumber, partly loaded here. The last of the Tacoma cargo was being taken on board when the vessel listed to port, away from the dock. Orders were once given by Capt. Matsuo to work the water out of the ballast tank on the port side.

Lines attached to a lumber-laden scow moored alongside the ship snapped as the scow took the strain of the ship. Next the vessel brought up against the docks and held.

BRITISH COLUMBIAN LUMBER CARGO FOR NEW YORK

Seattle, Sept. 15.—The Norwegian steamer Ravanger, which discharged 3,000 steel rails here, departed yesterday for Vancouver, B. C., to load lumber for Poughkeepsie, N. Y.

HAD ENGINE TROUBLE

Wilhelmina Again to Sea After Repairs at Honolulu.

San Francisco, Sept. 15.—The liner Wilhelmina, which put back to Honolulu Wednesday to replace a sliding side port yesterday resumed the trip to San Francisco, according to wireless advices received here.

FIRST PACIFIC MAIL LINER IN SEATTLE WAS CELEBRATED

Seattle, Sept. 15.—As guests of R. B. Borchgrevink, resident manager for W. R. Grace Company, fifty shipping men of Seattle were entertained last night aboard the steamship Santa Malta, the first regular Pacific Mail liner to call here in years.

STORMY WEATHER PREVAILS IN ALASKAN WATERS

Seattle, Sept. 15.—Handicapped by stormy weather in the Behring Sea on Wednesday, the steamship Brookdale is experiencing difficulty in discharging cargo, according to word reaching R. W. Crosby, president of the Crosby Marine Corporation, owners of the vessel. Some freight was put off without difficulty at Akutan and at Dutch harbor passengers were landed. Trouble was had at St. George and St. Paul Islands.

TAKING LUMBER TO AUSTRALIA

San Francisco, Sept. 15.—The four-masted schooner William H. Smith, which made a record long voyage from the Solomon Islands to this port with a cargo of copra has been placed in drydock to have a main mast installed. The schooner will leave for Puget Sound ports in a few days to load lumber for Australia and will load copra again in the South Seas for San Francisco.

WHALE CATCH BEATS RECORD OF YEARS

San Francisco, Sept. 15.—The whale catch of the 1922 season is the largest in five years, according to officials of the California Sea Products Company. The company has maintained two whaling ships at Trinidad and two at Moss Landing. The season's catch has been 325 whales, most of which were caught off the Trinidad station. Heavy fog handicapped the crews at Moss Landing.

MARGARET COUGHLAN BEING CONDITIONED AT ESQUIMALT

Deserts False Creek Mudflats to Take Lumber to Montreal

The freighter Margaret Coughlan is expected by Yarrow's Limited, to be completed by to-morrow evening. The vessel has for some months been lying in False Creek at Vancouver, and has been chartered to carry to Montreal the bulk of the 5,000,000 feet of British Columbia fir ordered by the Montreal Harbor Commission. Captain Bridges will again command the vessel when she puts to sea.

The Montego of the Canadian Pacific Steamships will transport 1,500,000 feet of this order, and the Margaret Coughlan will take the remainder. According to the terms of the agreement, which has secured the order for Douglas fir under stiff competition with Washington mills, the whole of the contract must be delivered in Montreal before ice closes that port to navigation.

CANADIAN WIRELESS GOVERNMENT REPORT

8 a. m. Sept. 15.

Bathers Leave Fires—Bathers and others who leave beach fires burning unguarded after they have departed will find themselves at variance with the fire department shortly. It is stated by Chief Stewart to-day: No less than three runs to the city beaches have been made by the department this week, one which one call was to quench a blaze that was fought for three hours before being rendered innocuous. A roof fire at 923 View Street occasioned a short run at 9 a.m. to-day.

NEWS IN BRIEF

Good Coho Run.—Trollers off Race Rocks are this year experiencing an excellent run of Coho salmon, and are making good money selling their catches to the canneries at Sooke and Esquimalt.

Thanks I. O. O. E.—The Great War Veterans' Association wishes to thank the Lady Douglas Chapter, I. O. O. E. for the generous grant made to swell the Tag Day fund for relief work among war veterans and their dependents.

Will Hold Smoker.—Commercial travelers will hold a smoker to-night commencing at 8 o'clock at the Harmony Hall, Fort Street. Local talent will be provided for the evening's programme. All knights of the grip are cordially invited to attend.

Will Give Assistance.—Rev. Dr. Maclean, who is conducting a series of evangelistic meetings in the Mount Talmie Presbyterian Church will be assisted by the male quartette of the St. Paul's Presbyterian Church to-night.

Savings Certificates.—The sale of Dominion of Canada Savings Certificates and Thrift Stamps was discontinued from September 1, 1922, and all certificates and thrift stamps remaining unsold are to be returned to the Department, when advised by the financial superintendent.

Prof. Odium.—Lecture—Professor Odium, who recently returned from an extensive tour in Eastern lands, will visit Victoria next week, and will speak three times at the Centennial Methodist Church on Sunday, and will give lectures at the same church on Monday, Tuesday and Wednesday next.

To Address Veterans.—Colonel Lorne Ross will address the Great War Veterans' Association at their clubrooms on Bastion Street, when the general meeting is held on Tuesday evening next. He will speak on the subject of the Community Chest. The executive of the association will meet as usual at 7 o'clock.

Money Order Service.—The money order service between the United Kingdom and Germany having been temporarily suspended by the German Postal Administration, Postmasters in Canada have been ordered to discontinue issuing money orders upon Germany until further advised.

Sent to Jail.—Arthur Thorpe, under the influence of a car while under the influence of an intoxicant, was sentenced to seven days in jail to-day in a short session of the city police court. The accused pleaded guilty and was told that there was no option but imprisonment under the code.

In County Court.—Before His Honor Judge Lammiman in the County Court to-day, C. J. Cook, appearing from a six-months' police court sentence on a charge of the unlawful sale of liquor, was told that the hearing would come to trial on Tuesday next. J. J. Harrison will appear for the municipality of Esquimalt, and R. C. Lowe for the appellant.

Gun Club Will Shoot.—The regular trap shoot of the Esquimalt Gun Club will take place at 3 p.m. to-morrow at the Admirals' Road grounds. Hunters are getting ready for the opening of the bird season. Ammunition may be obtained at the grounds, and the public are cordially invited. It is stated.

All Wood Sold.—Saanich has sold at \$3 per cord all the wood cut last winter by men seeking relief work. The Council was last night informed. The 550 cords cut will have resulted, when the Dominion contribution is received, in Saanich incurring only a nominal loss on the relief programme.

Fire Prevention Day.—That October 9 will be observed throughout Canada as Fire Prevention Day is announced in The Canada Gazette. The proclamation states that the fire loss in Canada in 1921 was \$45,000,000. On this day all will be asked to give heed to their premises from the viewpoint of fire security, and special lectures will be held in many parts of the Dominion.

Reported Incorrect.—A report, regularly entered in the police journals, that two nurses of the St. Joseph's Hospital had been molested by a man while en route to the nurses' home at night, was stated to be incorrect by the hospital authorities to-day. The report, it transpires, was turned in by telephone by a lady who refused to give her name and address to the police. No nurses could have been abroad at that hour, it is now stated.

Pleasing Event.—A very pleasing event took place on Thursday evening in the Legislative dining room at the Parliament Buildings, when Miss Margaret Sibbald was the reason for a surprise shower given her by the girls of the Finance Department, where she has been employed for the past three years. The table, which covers were laid for nine, was centred with a silver basket filled with sweet peas, from which streamers extended to the four corners. After refreshments had been served the guest of honor was requested to

pull two silken ribbons which were suspended from a beautifully decorated bell attached to the chandelier, the result being a shower of pretty and useful gifts. The guests included the Misses Margaret Sibbald, Edna Steele, Minnie Wilkinson, Margaret Wood, Theo. Service, Gwen, Margaret, Dorothy Waites, G. Morrish and Mrs. Hall.

Many Kicks, No Credit.—Concluding the expense of holding a council election in Ward Seven would not be worth \$200 for the privilege of having a representative to scrutinize expense bills already paid, the Saanich Council last night decided to take no action unless local sentiment in the ward should so demand. Councillor Dooley has submitted his resignation, but it has not as yet been accepted.

Spoke of Travel.—William Darwin, formerly of the Australian Flying Corps, lectured before a party of 100 in the Saanich Legion rooms last night. Col. Lorne Ross was in the chair, some 200 attending. The speaker dealt with his travels around the world, and will repeat the lecture at Columbia Theatre on Sunday evening. Miss Doris Welsh, and Messrs. A. Welsh and William Henry contributed excellent vocal numbers.

Juvenile Foresters.—Courts of Canada and Excelsior, Juvenile Foresters, held a very successful meeting last night in the "Foyer" Hall, when a large number of new members were initiated. Junior Past Chief Ranger Brother Callow installed the officers for this term, and plans were made for a hold an indoor picnic at the meeting in October. The girls entertained the large gathering with instrumental selections and songs and a short sketch. Those taking part in the programme were the Misses Elsie Whitehead, Doris Welch, Phyllis Petheridge, Mary Maclean and Ellen Johnson under direction of Miss Alice Leckie.

In Supreme Court.—Two Supreme Court hearings were in session simultaneously to-day, the Appeal Court room being used for the second trial. Before Mr. Justice D. A. McDonald in the second court the appeal of Lee Mong Kow and L. D. C. Cheatham versus the Registrar General of Titles was opened. The appeal is of title from an amount of the damages assessed by the Registrar at some \$12,000 for loss of certain property due to an incorrect issuance of titles. W. A. Brethour appeared for the plaintiff and Mr. Pattullo for the Registrar General of Titles. The action proceeds. At the close of the first hearing the divorce action of Douglas versus Douglas is to proceed, with H. B. Robertson, K. C. for the husband petitioner, H. B. A. Courtney for the respondent and F. C. Elliott, for the co-respondent. The action came on previously but was adjourned for the taking of evidence by commission on the American side.

Endorse Community Chest.—At the regular session of the Army and Navy Veterans, held in the club rooms last night with President T. A. Dicks in the chair, the membership went on record as endorsing the Community Chest system of charitable donations. The action was taken in response to a letter from Col. Lorne Ross. A handsome photograph of the Vimy monument, erected in honor of the men who fell in

TURN DOWN CUT IN WATER RATES FOR SMALL HOMES

Mayor's Plan Rejected; New High Rates to Affect Few, Aldermen Declare

Water rate reductions for small home owners, proposed by Mayor William Marchant, were rejected by the civic Public Utilities Committee yesterday afternoon. To-day the Mayor announced that he would fight for his rate reduction plans before the full Council at its next regular meeting.

The Public Utilities Committee refused to reduce water rates because it did not feel justified in cutting the city's revenue in any way whatever. The Mayor argues that it is not just to make poor people pay for a minimum of 400 cubic feet a month when actually they seldom use more than 400 cubic feet.

While the Public Utilities Committee has been considering reduced rates for small owners, the Public Works Committee has determined to increase rates for large users. Members of the Civic Public Works Committee who have approved a rate increase of two cents a 100 cubic feet for all water over the minimum of 400 cubic feet, defended this raise on the ground that it would affect only a very few people in the city.

The average person does not use the minimum of 400 cubic feet," Alderman Robert Dewar, chairman of the Public Works Committee, declared. "Except possibly for some two months in the summer most people are well within the minimum. The increase will affect only very heavy users of water."

Public Works Committee members are not very favorably disposed toward Mayor Marchant's plan for a rate reduction for small homes. They say that the City Waterworks system must be able to pay and that the City cannot afford to reduce any of its revenues under present conditions.

Next year waterworks revenues will be considerably increased which the Mayor's plan would reduce. The Mayor's plan for a rate reduction for small homes, they say, that the City Waterworks system must be able to pay and that the City cannot afford to reduce any of its revenues under present conditions.

YOU Can Play the Saxophone

The Saxophone is the most popular instrument in the orchestra because it adapts itself splendidly for solo or ensemble playing. It is a remarkably easy instrument to learn.

The Saxophones we show in such big variety are by Conn & Co. the largest makers of band instruments in the world.

PROPOSED WATER SYSTEM DISCUSSED

Greater Victoria Committee Making Headway

A draft of the proposed water board legislation for Greater Victoria will be laid before the next meeting of the Greater Victoria Committee by Alderman A. E. Todd, who is chairman of the committee and the prime mover in the Greater Victoria scheme. The advocates of the plan are optimistic regarding the possibilities of development and a lengthy discussion of the scheme will be held yesterday afternoon by the committee in the offices of the Pemberton Building. Anyone wishing to offer suggestions or for information regarding the scheme will be welcomed at the Greater Victoria office.

Alderman Leeming as chairman of the water committee investigating existing water resources and irrigation needs, says a report which showed that a great deal of work had been done in gathering together the necessary data. Emphasis was laid on the fact that millions of gallons of water were going to waste which should be turned to some useful purpose.

In regard to its system, the Sooke Harbor Water Company furnished the following information:

The water available is up to 2,000,000 gallons, about 100,000 gallons being used daily. The water is sold at a flat rate of \$2 per month. The water works are reported to have a 50 per cent. and 50 per cent. use has been made of the water in a small way for irrigation purposes, a flat rate of \$1 per month being made. The irrigation is mostly by hose and sprinklers.

City's System.
"If the concrete flow line from Sooke to Humboldt were repaired," wrote the City Engineer in answer to a question, "it would have a capacity of from 18 to 19 million gallons per twenty-four hours. At the present time its capacity during the summer months is 14 to 15 million gallons per twenty-four hours—about 34 million gallons per day."

The City Engineer also reported that during 1921 the consumption averaged seven million gallons per day. The amount estimated as required for 1922 is between 8 1/2 and nine million gallons per day. The amount of water available from Elk Lake is 2 1/2 million gallons. The cost of earth excavation and back filling is \$1.50 per cubic yard, and rock \$4 to \$8 per cubic yard.

The Esquimalt Waterworks Company supplied the following particulars of its system:

Water available, 12,000,000 gallons per day; water being used, 1,000,000 gallons per day; at a cost of \$500,000 the water supply can be increased 45 per cent.; a minimum rate is being charged for water by meter, no meter.

ARREST FOLLOW PETTY PIRACY

Two Men Accused of Theft From Launches at Brentwood

Charged in the Provincial Police Court to-day with a series of thefts purported to have been made from launches and bathhouses at Brentwood, Earl Heale and Harold Stacey were remanded until Tuesday for hearing. Three charges of theft rest against each of the accused. The accused were arrested by the Provincial Police in connection with what amounts to a reign of piracy and small robberies perpetrated by unknown persons on the fleets at Cadboro Bay and Brentwood. The value of articles stolen at both places will run into many hundreds of dollars, it is said. The accused took part in three robberies, they are charged, and were found in possession of some of the property taken, it was alleged. Speaking to the matter of Stephen Power, held on remand for the British authorities on China in the Court this morning, H. A. Maclean, K. C. for the crown advised the Court that the warrant and escort were now at hand. R. C. Lowe on behalf of W. C. Moreby for the accused stated habeas corpus proceedings were pending and would come on for hearing on Monday. The court agreed to a further remand until the habeas corpus matter is heard.

PROPOSED WATER SYSTEM DISCUSSED

Greater Victoria Committee Making Headway

A draft of the proposed water board legislation for Greater Victoria will be laid before the next meeting of the Greater Victoria Committee by Alderman A. E. Todd, who is chairman of the committee and the prime mover in the Greater Victoria scheme. The advocates of the plan are optimistic regarding the possibilities of development and a lengthy discussion of the scheme will be held yesterday afternoon by the committee in the offices of the Pemberton Building. Anyone wishing to offer suggestions or for information regarding the scheme will be welcomed at the Greater Victoria office.

Alderman Leeming as chairman of the water committee investigating existing water resources and irrigation needs, says a report which showed that a great deal of work had been done in gathering together the necessary data. Emphasis was laid on the fact that millions of gallons of water were going to waste which should be turned to some useful purpose.

In regard to its system, the Sooke Harbor Water Company furnished the following information:

The water available is up to 2,000,000 gallons, about 100,000 gallons being used daily. The water is sold at a flat rate of \$2 per month. The water works are reported to have a 50 per cent. and 50 per cent. use has been made of the water in a small way for irrigation purposes, a flat rate of \$1 per month being made. The irrigation is mostly by hose and sprinklers.

City's System.
"If the concrete flow line from Sooke to Humboldt were repaired," wrote the City Engineer in answer to a question, "it would have a capacity of from 18 to 19 million gallons per twenty-four hours. At the present time its capacity during the summer months is 14 to 15 million gallons per twenty-four hours—about 34 million gallons per day."

The City Engineer also reported that during 1921 the consumption averaged seven million gallons per day. The amount estimated as required for 1922 is between 8 1/2 and nine million gallons per day. The amount of water available from Elk Lake is 2 1/2 million gallons. The cost of earth excavation and back filling is \$1.50 per cubic yard, and rock \$4 to \$8 per cubic yard.

The Esquimalt Waterworks Company supplied the following particulars of its system:

Water available, 12,000,000 gallons per day; water being used, 1,000,000 gallons per day; at a cost of \$500,000 the water supply can be increased 45 per cent.; a minimum rate is being charged for water by meter, no meter.

The TIMES NEWS of SPORT

Hunters Flock To Hills For Opening

Deer Season Opens To-morrow Morning and Hundreds of Hunters Will Be On Firing Line; Hunting This Year Is Restricted to Small District Owing to Shutting Off of Sooke; E. & N. Land Grant Provides Puzzle

Hundreds of hunters are hitting the hills to-day to be on the firing line when the sun peeks over the horizon in the morning. The hunting contingent is going out to stalk the sprightly deer. Most of the Nimrods are bound for their favorite haunts in the old "Lizzie," while those less fortunate are taking the train to their jumping-off place and foot-slogging the rest of the route.

There will no doubt be a heavy barrage when the sun comes up in the morning to usher in the deer season. Owing to the new regulations the hunting this year will be confined to a small space and the buff-bing-bangs will be rattling off within close proximity to one another.

Hunting For a Line

While hunting for deer will be the main object of most hunters it is a cinch that a lot of them will be out trying to locate the E. & N. Land Grant, which formed the southern boundary this season. The Game Board ruled that no deer should be taken south of this line, which eliminated the whole of Sooke, formerly a happy hunting ground for many Nimrods.

Very few hunters have anything about the E. & N. Land Grant. Maps have been scanned to give some idea of how the line goes, but it looks as though a hunter will have to pack a compass and all the equipment of a surveyor if he wants to be sure that he is not "poaching." There are no roads to guide the hunter. He must plod along on his sense of smell and trust to luck that no game warden will cross his path and inform him that he is trespassing. The Land Grant starts near Niagara Canyon and runs in a W. S. W. direction to Muir Creek, when it turns at almost right angles to the N. W. Goldstream is also out of bounds.

Hunters Not Pleased

The game regulations have called forth considerable adverse comment from hunters this season. The splitting of the season has made the hunters guessing as to "What, where and when to shoot."

The opening of the deer season before the birds has caused some criticism. It has been made it necessary for hunters to secure permits to carry firearms. The hunters have to obtain a license to have a gun and then a permit to be able to carry it. Grouse will become victims of the hunters' guns next Saturday.

Get a Booklet

Peden Brothers have issued their annual "Sports Review," in which they have published the Game Laws and a map of the southern portion of the island showing the E. & N. Land Grant. The booklet also contains many important items for hunters. A number of "Don'ts" instructions in how to skin and take care of specimens, made up in train and stage schedules, what to do in cases of poisoning and drowning are included in the booklet.

LAST BOWLING MATCH OF YEAR TO-MORROW

Victoria Bowling Club Will Play Civil Servants at Beacon Hill Green

The Victoria Lawn Bowling Club are not taking any chances in their annual match with the local members of the Civil Service, which will be played to-morrow afternoon at the Beacon Hill green. James Raeside, James Munro, Tom McCosh, Andrew McKeachie and John M. Boyd will be the club skippers and are all grades in the first class. These gentlemen will choose their players on Saturday at 2 o'clock. Members wishing to play should register at once.

The Civil Servants are offering a prize for the highest score on their side, and it is likely there will be a similar inducement presented by the club players. The match will start at 2.30. It will be the last full green match of the season.

CRUSADERS OBJECT

Last evening's Times stated that the V. L. is the only club taking an interest in track events, and the Crusaders' Athletic Club wish to have their objection to this statement. They have not only entered more events this year, but have had more contestants in the field. This club had two or more winners in every long distance race held during the year, and they were represented at the Police, Canadian Legion and Foresters field meets. Their track team visited Sidney on July 1, in acquiring the 71-year-old horse, man broke a record of forty-seven years standing on the turf by being called into the judges' stand. Driving Midge-Dug, "Pop," easily won the Governor's cup event yesterday. Governor Edwin P. Morrow then called Geers into the stand to present the silver loving cup donated by the fair association.

"This is the first time I was ever called into the judges' stand in my forty-seven years on the turf," the old master said, "but it certainly is a happy occasion."

TEDDY BLAIR, President, Crusaders.

MATHEMATICIANS FAVOR NEW YORK

All Leading Teams Win, Even at That New York Teams Improved Position

St. Louis and Pittsburgh Have Quite a Job to Win Out; Joe Bush Wins Again

New York, Sept. 15.—Victories by all four of the leading pennant contenders, New York and Pittsburgh in the National, and New York and St. Louis in the American, left the relative standings of the rivals unchanged to-day, but improved the mathematical chances of the leading New York teams.

By capturing thirteen of their remaining games, the Giants can win even if the Pirates take all of their remaining sixteen contests. In the American the Browns made up their twelve out of thirteen remaining games if the Yankees win ten out of fourteen.

Bush Wins for Yankees
Joe Bush's brilliant pitching and Babe Ruth's thirty-second homer were high lights in the Yankees' second-straight triumph over Chicago four to one, while the Browns staged a belated rally to down Boston five to three.

The Giants, outbait by fifteen to seven, called on five hurlers before losing to Chicago seven to six, while the Pirates crushed Boston again eight to nothing, with Babe Adams in raze form.

At Detroit, turned back the Athletics five to two, and Stuffy McInnis poled out a homer that enabled Cleveland to down Washington four to three.

Milton Shock crashed out five hits in as many times at bat, while the St. Louis Cardinals made up a row from Philadelphia, nine to four. Grimes was hit hard by Cincinnati while Cough was a puzzle to Brooklyn, the Reds winning seven to three.

HOW THE CLUBS STAND

| American League | | |

OLD "POP" GEERS WINS ANOTHER TURF TROPHY

Louisville, Ky., Sept. 14.—E. F. "Pop" Geers yesterday had another trophy to his collection in acquiring the 71-year-old horse, man broke a record of forty-seven years standing on the turf by being called into the judges' stand. Driving Midge-Dug, "Pop," easily won the Governor's cup event yesterday. Governor Edwin P. Morrow then called Geers into the stand to present the silver loving cup donated by the fair association.

"This is the first time I was ever called into the judges' stand in my forty-seven years on the turf," the old master said, "but it certainly is a happy occasion."

ADA MCKENZIE IS BEATEN BY ALEXA

U. S. Golf Star Halved 18th Hole and Eliminated Canadian Champ

Both Players Played Splendid Game Despite Rain: Were All Square at Turn

Toronto, Sept. 15.—Four pairs were left in the race for the ladies' golf championship of Canada when the third round started this morning. It was another cloudy morning, weather similar to what has prevailed all week.

Toronto, Sept. 15.—Despite bad weather conditions, a drizzle prevailing for the earlier part of the afternoon and a heavy shower falling towards the end of the latter matches, the eight second round games in the championship flight of the Canadian ladies' golf tournament this afternoon was productive of excellent golf by one or other of the players, and in several cases both contestants were at the top of their form.

The feature match of the day was that between Miss Ada Mackenzie, the present Ontario champion, and a former Canadian title holder, and Miss Alexa Stirling, the United States player who won the championship at Hamilton in 1920. The meeting was witnessed by a large gallery, despite the rain, and the spectators were well pleased with the match.

Although conditions were unfavorable for good golf, both players went out in 44, five over par, and they made the turn all square, each having won by one hole and halved seven.

The scores:
Miss Stirling, 45, 45, 45—44.
Miss Mackenzie, 46, 46, 46—44.
Total, 88.
Champion, second round:
Miss H. Kennedy, Royal, Montreal, 45, 45, 45—44.
Total, 88.

Two rounds in each of the flights will be played to-day, leaving the final games in the championship and consolation left for Saturday. The first round in the first, second and third consolations will be played this morning, and the finals in the afternoon.

Three Hamilton players were successful in the golf championship consolation play yesterday morning. Mrs. H. Bostock, Mrs. Hope Gibson and Miss Effie Nesbitt being returned winners.

The longest game of the championship to date was that between Mrs. Frank Spry, of London, and Miss Dundas, of Pittsburgh, in the second round at the second consolation which the former won at the twentieth hole.

Champion consolation:
Mrs. J. Bridges, Winnipeg, defeated Mrs. A. M. Rideout, Lambton, 3 and 2.
Third consolation, second round:
Mrs. E. Risdon, Scarborough, defeated Mrs. G. C. Griffin, Winnipeg, 3 and 2.

LAST CRICKET GAME OF YEAR TO-MORROW

Incoogs Will Meet "All-Stars" From Rest of League at Jubilee Grounds

Cricket enthusiasts will have their last opportunity to witness King William in action this season at the Jubilee grounds to-morrow afternoon, when the Incoogs will meet the "All-Stars" from the rest of the league.

The match is expected to attract a large crowd, and the Incoogs will be looking for a win in the aid of the funds of the Victoria and District Cricket Association, which requires money to meet its obligations.

The Incoogs will have their full team in the field and the all-stars will have a strong team. The match will be a hard-fought one, and the Incoogs will be looking for a win in the aid of the funds of the Victoria and District Cricket Association, which requires money to meet its obligations.

All-stars—Butterworth and Bartlett, Army and Navy; Howard and Martin, Victoria; Watson and Freeman, Abnons; Knappman and Edwards, Five C's; Abbott and Gibson, Garrison; and Booth, Five C's.

Incoogs—Sparks, Goodday, Tracey, Kinch, Allen, J. Wenman, R. Wenman, Hewett, Bunting, Haddon, and G. Wenman.

O'LOUGHLIN LEADS FIELD

Long Beach N. Y., Sept. 15.—Marty O'Loughlin of Plainfield, N. J., holder of the New Jersey open golf championship, led the field in the Metropolitan open championship yesterday at the 18th hole. The tournament will be concluded to-day with 36 holes of play, 18 in the morning and 18 in the afternoon.

LIONEL CONICHER ASKS DAMAGES OF \$50,000

Toronto, Sept. 14.—Lionel Conicher, rugby, hockey and baseball star, yesterday filed a motion for judgment asking damages of \$50,000 for alleged libel and slander, contained in an article appearing over E. J. Livingston's signature in "Sport," a weekly sporting paper, August 12 and 13, September 9.

HELEN WILLS WINS GIRLS' TENNIS TITLE

Defeated Miss Hooker in Straight Sets; Molla Mallory Wins Her Match

Philadelphia, Sept. 15.—Miss Helen Wills, of Berkeley, Cal., won the girls' national lawn tennis singles championship to-day by defeating Miss Helen Hooker, of New York, 6-2, 6-2, on the courts of the Philadelphia cricket club at St. Martin's. Pa. Miss Hooker's total of six games was more than all other players, both in the girls' tourney and in the women's middle state title meeting have been able to get from the sixteen-year-old Californian star combined this week.

In a semi-final match of the middle states singles, Mrs. Molla Mallory, of New York, defeated Miss Leslie Bancroft, of Boston, 6-2, 6-3.

CRUIQU ANXIOUS TO MEET JOHN DUNDEE

Paris, Sept. 15.—The manager of Eugene Segui, the French boxer, who holds the featherweight championship of Europe, has sent a cablegram to Jack Kearns, in New York, making an offer of \$10,000 to meet John Dundee in New York October 12.

Oriental Wins Fly Title; Going After Jimmy Wilde

New York, Sept. 15.—Pancho Villa, the Filipino boxer, who won the United States flyweight championship last night by scoring a technical knockout over Johnny Buff, of Jersey City in the 11th round of a 15-round match, will now seek a match with Jimmy Wilde, of England, for the world's title. Villa demonstrated his superiority over the best of the United States 112-pounders by out-boxing and outpunching Buff decisively.

Brooklyn, Sept. 15.—Pancho Villa, of Manila, last night became the flyweight champion of the United States by scoring a technical knockout over Johnny Buff, of Jersey City, 27 seconds after the opening of the eleventh round of a scheduled twelve-round bout.

Buff's second threw a towel into the ring when Johnny, battered to grogginess, stood helpless before the Filipino's attack. Villa scored two knockdowns. He began by punning, hitting Buff with both hands, rushing him to the ropes and then chasing him across the ring. Buff was reeling when Villa landed his left to the head and sent the American bumping to the floor.

Buff was outclassed. The first time Buff did not take a count, but when Villa placed both hands to the head a few seconds later the American lay on the floor until five and six seconds had elapsed, saving him. He was picked up and placed in his chair.

It was Villa's fight from the first. He was always active, always punching for an opening, instead of waiting for a chance, as Buff did. His terrific body blows, with both hands, sapped the American champion in the early rounds and his crushing left hook and jab to the head in the latter round brought him the victory.

Buff was unable to open an attack. He tried to edge in blows after the third round, but Villa met every attack with another of two hands, punishing relentlessly.

HORSES RUN IN MUD TO PLEASE THE FANS

Syracuse, N.Y., Sept. 15.—Through a misty fog and over a track nearly fetlock deep in mud, six horses of the Grand Circuit yesterday raced simply to please a crowd of 15,000 harness race devotees who had gathered for what originally were six events and four exhibitions on the programme.

Two racers, were John Henry and John Pershing, driven respectively by Walter Cox and Tommy Murphy. The event was the 2.03 pace, in which a half dozen other entries were withdrawn.

The fastest time in the ordinarily fast 2.03 pace was 2:17. In other words, the track was at least fourteen seconds slow, which probably sets a record on the Grand Circuit. Due to postponements from Tuesday, Wednesday and yesterday, eight races are left to be contested by the half-cavalade which moves to Columbus, Ohio, on Monday. All of these events will be raced Friday, starting at noon.

If weather conditions permit, the night it seemed unlikely that any races would be held.

WANDERERS TO MEET

The Wanderers Rugby football team will meet the Junior Baseball team at a meeting this afternoon at 5.30 o'clock, in the offices of Gillespie, Hart and Todd, Fort Street. The Wanderers will decide on their plans for the coming season. Last year they had teams in the Senior and Intermediate leagues. All members of these clubs are invited to attend, and any other Rugby players who would like to catch places on the team this year are also asked to attend.

JUNIOR BASEBALL

The Pirates and the Tyees will play a game in Junior Baseball at the Stadium to-morrow afternoon at 1.15 o'clock. The game will decide whether the Tyees or the Pirates have a chance for the championship of the league. If the Pirates win the game they will annex the title. If the Tyees win they will have to play off with the Pirates for the championship of the second half of the schedule.

The Pirates will probably use Cameron or Lee to hurl them to victory, while the Tyees will call upon Bothwell or McLennan and Balcorn in reserve.

The teams will line up as follows: Pirates—Thornburn, catcher; Cameron or Lee, pitcher; McDermid, first base; Thomas, second base; Darcy, shortstop; Fisher, third base; Kay, left field; Gandy, centre field; Sutherland, right field. Tyees—Easton, catcher; Bothwell, McLennan, pitcher; Balcorn, first base; Passmore, second base; Hockins, shortstop; Belford, third base; Rose, left field; Stephens, centre field; Sellers or Davidson, right field.

Patterson Is Only Outsider In Play

Tilden, Johnston and Richards are to Reach Semi-Finals For U. S. Tennis Singles Championship; Anderson's Defeat By Richards Surprise of Day; Patterson Meets Tilden To-day; Johnston Plays Richards; Sensational Tennis

Philadelphia, Sept. 15.—William M. Johnston of San Francisco faced Vincent Richards of Yonkers, N.Y., and William Tilden, of Philadelphia, was matched against Gerald Patterson, of Australia, to-day, in the semi-final of the lawn tennis singles championship tournament here. Tilden and Johnston, champion and former titleholder respectively, were favorites to come through victorious to face each other in the final to-morrow.

Philadelphia, Sept. 15.—Playing tennis of a standard and calibre seldom seen by the closest observers of the sport, four players yesterday afternoon reached the semi-final round of the forty-first national singles championship.

Two were past and present titleholders, in the persons of William M. Johnston, of San Francisco, and William Tilden II. of this city. The other pair was composed of Gerald Patterson, the Australian tennis champion, and Vincent Richards, the youthful racquet phenomenon from Yonkers, N.Y.

In battling their way through the fifth day of the annual titular tournament on the courts of the Germantown Cricket Club, the quartette, the sole survivors of the 123 championship seekers who began play last Friday, clearly demonstrated their right to be classed with the greatest players in the history of the game.

Johnston defeated Manuel Alonso, the Spanish racquet star, 6-0, 6-2, 7-5. Tilden won from Zensu Shimizu, a Japanese, 6-3, 6-4, 6-3, 6-1. Patterson eliminated the former two-time champion, R. Norris Williams II. of Boston, 6-3, 6-2, 6-4, and Richards faced James O. Anderson, of Australia, 6-2, 6-4, 7-5.

Johnston a Marvel.
Although all four winners came through in straight sets, the bare scores do not begin to reveal the really marvelous tennis played by both victors and vanquished. That is particularly true of the Johnston-Alonso contest. It is doubtful if "Little Bill" ever uncovered a steadier or more brilliant streak of play in his long and famous career. He had to order defeat the Spanish tennis flash. Nothing was too fast or too well played to be beyond the reach of the nimble, sprinting Castilian's racquet, and Johnston advanced to the fifth inning, scoring Vitt and Wither, who had both singled. The Oaks were unable to connect with Gould in critical moments.

Seals Win One.
Portland, Ore., Sept. 15.—The Portland infield-west coast team in the first inning, in which four Seals were scored on glaring errors by Sargent and Brazil, not one of the Seals was out. Manager Pickard announced that the Seals were kept plugging away at McWeeny, but the Seals lead could not be overcome. The score was, San Francisco, 10; Portland, 5. The Seals' pitcher, Sargent, was knocked out of the game in the third inning, hit one in the fifth and also with one on, and High smashed another in the eighth, again with one on.

Went on Strand's Homer.
Oakland, Cal., Sept. 15.—Salt Lake defeated Oakland for the third successive time here yesterday four to two, when Strand drove a homer in the fifth inning, scoring Vitt and Wither, who had both singled. The Oaks were unable to connect with Gould in critical moments.

San Francisco Wins One.
San Francisco, Sept. 15.—The Seals defeated the Oaks for the third successive time here yesterday four to two, when Strand drove a homer in the fifth inning, scoring Vitt and Wither, who had both singled. The Oaks were unable to connect with Gould in critical moments.

Oh, What a Drubbing.
Los Angeles, Sept. 15.—Vernon defeated Sacramento twenty-one to one in a game just as lopsided as the score. The Tigers started their slaughter in first inning, after the Senators took a one-run lead. Despite the efforts of Pitchers Shea, Praetzer, Tartar and Peters, the Tigers hit the ball to all corners of the field. Manager Pickard announced that the Seals were kept plugging away at McWeeny, but the Seals lead could not be overcome. The score was, San Francisco, 10; Portland, 5. The Seals' pitcher, Sargent, was knocked out of the game in the third inning, hit one in the fifth and also with one on, and High smashed another in the eighth, again with one on.

Went on Strand's Homer.

Foolish Wives

The First Real Million Dollar Picture

presented by CARL LAEMMLE

Universal Super-Jewel Production

The magic pasteboards below cost over a million dollars—but they'll open the gate of your dreams to you—take you to the world's place of delight—show you the seamy side of the glittering surface you could not penetrate on a personal visit that cost you thousands of dollars—the fascinating—dazzling—alarming magnet of folly and fashion—"The Sign of the Seven Stars"—Monte Carlo—the fool's paradise.

More than \$60000 cost spent on production for every minute shown on the screen.

This charming guide will breakfast with you on a sun-drenched terrace overlooking a sapphire sea—she will tell you that glorious woman is an adventuress—that handsome man a swindler—that couple are nobodies—just rich Americans spending money—that the Princess just beyond is under suspicion—but that she won 50,000 francs at the Casino—that the Count is a charming man—that husbands are stupid—

Below is von Stroheim—who wrote directed, is featured in, and spent over a million dollars to produce the most beautiful picture the mind of man ever conceived—and all for your entertainment—You will see him at his best as a gay and gallant nobleman—at his worst as a thief—a coward—praying on the virtue and wealth of women—as a great actor—a superb director.

Pictorially surpasses anything ever achieved in pictures—dramatically grips, fascinates and entralls you—a complex magnificence that astounds you—a direct simplicity that drowns you in a sea of emotions.

FOREHANDED

Small Harry came running into the house, crying bitterly. "What's the matter Harry?" asked his uncle. "Buddy Jones slapped me," sobbed the little fellow. "You should have slapped him in return," unhesitatingly remarked the uncle. "Oh, I returned it first," replied Harry.

at the Theatre

ROYAL VICTORIA

Despite the fact that Richard Barthelmess is the star, canine instinct supplies the dominant note of "Sonny," the First National attraction which will be shown again today at the Royal Victoria Theatre. Without reflection upon the work of the star, who, in his dual part of Joe Peters and Sonny Crosby, is said to give the most human characterizations of his screen career, the key to the tenebrous dramatic situations are furnished by two actors whose names are not even credited on the screen billing.

They are Waggle and Lassie, the two canine pets of the Barthelmess household. Lassie will be recalled as the collie who won many wet eyes during the tragic moments of "Foolish Wives."

able David." Waggle is a newer and smaller acquisition of the Barthelmess household, being the pride of Mrs. Richard Barthelmess (Mary Hay).

It is the marvelous instinct of these two dogs to detect their masters and rebel at impersonations that furnishes the climax to a plot of striking dramatic power and emotional appeal.

The supporting cast includes Margaret Seddon, Pauline Carson, Lucy Fox, Herbert Grimwood, Patterson Dial, Fred Nicholls, James Terbell, Margaret Elizabeth Faulconer and Virginia Magee.

The boys who helped to make the other fellows merry in France are appearing at the Royal Victoria Theatre.

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario—"When my daughter was thirteen and until she was fifteen she suffered every month so that she could hardly move around the house and when the pains in school she would have to be carried home. Besides the pains and the irregularity of her menstruation she also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we both recommend your medicine. She works in a candy-shop now and seems well and strong."—Mrs. I. P. CLAUDE, 76 Walnut St., South, Hamilton, Ontario.

FILM DEFENDS POLICE FORCE

"In the Name of the Law" Featured Next Week at Dominion Theatre

The days of lampooning the police in motion pictures are over. For years the men who patrol the streets of the country, who risk their lives to safeguard our homes and our property, have been made the butt of comic films that make them appear like anything but human beings; that poke fun at their work and their families and, in short, make the policeman a laughing stock.

Now comes a motion picture which shows the policeman in the right light. It is called "In the Name of the Law," and is being distributed throughout the country. Thousands of big theatres are showing it; hundreds of police chiefs and thousands of policemen have given it their heartiest endorsement and for the first time the public is being shown just what sort of a man the average policeman is, how he lives at home, how he rears his family and by what fine motives he is actuated in the daily performance of his duties.

"In the Name of the Law," which will be shown at the Dominion Theatre on Monday next was made for the main purpose of entertaining the millions of men and women and children who patronize moving picture theatres. But its purpose goes also beyond the mere idea of entertainment. It is a big human document of strong emotions, of tense drama, of swift action.

It unfolds a tale of poignant humaneness. It tells a story about Policeman Patrick O'Hara and his family, consisting of Mother O'Hara, who is the bustling type of lovable housewife, and their two fine sons, Harry and Johnnie. An adopted daughter, Mary, also plays an important role in the picture and about this family group has been woven a story of striking appeal.

Policemen, the country over have given "In the Name of the Law" their heartiest approval because it shows for the first time on record the sweet home life of a policeman's family. It depicts the years of toil during which a policeman and his devoted wife save diligently and at last put away sufficient money to buy a home. It shows how firmly they both stand in the big crises of their lives.

In the cast are such capable players as Emory Johnson, who properly dubbed the picture; Ralph Lewis, who appears as Officer O'Hara; Ella Hall, Johnnie Walker and others.

A Broken Arm

May result if you let your battery run down and resort to cranking your engine by hand. Have your battery tested regularly at JONES' BATTERY SHOP

Opposite Capitol Theatre 804 Yates St. Phone 3714

BOB WEBB MAY DECIDE TO SING THIS EVEN YET

Every night at half-past eight (Note the time and don't be late!) To the Playhouse if you go You'll see "The Girl From Tokio." Bright and breezy, tuneful, gay—Vaudeville and potted play!

Little maids with almond eyes, Garbed like gorgeous butterflies; Just the kind that "rule the wave"; Mandarin's moustachio-curl!—Lots of plot? I'll tell the world!

Love and laughter—flower and song—Nothing serious—nothing long! "Brevity," the soul of wit. Hickeys has learnt the whole of it. Potted Opera!—choose the best, Leave skin and bones, and mince the rest!

That's a Playhouse show! Gee whiz! Lots of fun? I'll say there is!

Some men are rich enough to hire a valet, and some simply get married.

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario—"When my daughter was thirteen and until she was fifteen she suffered every month so that she could hardly move around the house and when the pains in school she would have to be carried home. Besides the pains and the irregularity of her menstruation she also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we both recommend your medicine. She works in a candy-shop now and seems well and strong."—Mrs. I. P. CLAUDE, 76 Walnut St., South, Hamilton, Ontario.

FILM DEFENDS POLICE FORCE

"In the Name of the Law" Featured Next Week at Dominion Theatre

The days of lampooning the police in motion pictures are over. For years the men who patrol the streets of the country, who risk their lives to safeguard our homes and our property, have been made the butt of comic films that make them appear like anything but human beings; that poke fun at their work and their families and, in short, make the policeman a laughing stock.

Now comes a motion picture which shows the policeman in the right light. It is called "In the Name of the Law," and is being distributed throughout the country. Thousands of big theatres are showing it; hundreds of police chiefs and thousands of policemen have given it their heartiest endorsement and for the first time the public is being shown just what sort of a man the average policeman is, how he lives at home, how he rears his family and by what fine motives he is actuated in the daily performance of his duties.

"In the Name of the Law," which will be shown at the Dominion Theatre on Monday next was made for the main purpose of entertaining the millions of men and women and children who patronize moving picture theatres. But its purpose goes also beyond the mere idea of entertainment. It is a big human document of strong emotions, of tense drama, of swift action.

It unfolds a tale of poignant humaneness. It tells a story about Policeman Patrick O'Hara and his family, consisting of Mother O'Hara, who is the bustling type of lovable housewife, and their two fine sons, Harry and Johnnie. An adopted daughter, Mary, also plays an important role in the picture and about this family group has been woven a story of striking appeal.

Policemen, the country over have given "In the Name of the Law" their heartiest approval because it shows for the first time on record the sweet home life of a policeman's family. It depicts the years of toil during which a policeman and his devoted wife save diligently and at last put away sufficient money to buy a home. It shows how firmly they both stand in the big crises of their lives.

In the cast are such capable players as Emory Johnson, who properly dubbed the picture; Ralph Lewis, who appears as Officer O'Hara; Ella Hall, Johnnie Walker and others.

A Broken Arm

May result if you let your battery run down and resort to cranking your engine by hand. Have your battery tested regularly at JONES' BATTERY SHOP

FASHION DISPLAY TO BE REPEATED

Capitol to Be Scene of Rich Sartorial Display for Hudson's Bay Co.

Such striking success has crowned the two-day display of fashions staged early this week at the Hudson's Bay store that the management has arranged to give further opportunities of inspection to the many who have been unable to get a good view or were not able to attend either Monday or Tuesday's performance. By special arrangement, therefore, with the management of the Capitol Theatre the Hudson's Bay Company are holding another Fashion Review, with an entirely new selection of atelier models imported from Paris and New York, as well as many lovely models made in the Hudson's Bay store's own work-rooms. This display will have the added advantage of special lighting and stage effects under the management of Leon Leonidoff, and will be staged nightly next week at each de luxe performance.

In Time of Need It's always

Zam-Buk

"We Find It Indispensable, whenever the children get cut, bruised or burned," writes Mrs. T. Fothergill, Ridge Farm, Bousman River, Man. "Once when my wrist was badly cut and the doctor tried stitching it, it would not heal. Zam-Buk soon put it right. I have also found Zam-Buk a soothing remedy for skin rash and irritation, also for piles."

"Our eldest boy was recently badly cut about the face by one of the cattle. At first I was afraid he might lose his eye. But we kept the injury clean, regularly dressed it with Zam-Buk, and it healed perfectly."

"My husband always carries Zam-Buk about with him on the farm, prepared for any accident. It one time rid him of a nasty outbreak of boils."

Zam-Buk with its wide range of usefulness saves worry and doctor's bills. It cures eczema, ulcers, piles and ringworm as surely as it grows new skin over a cut, burn or scald, or place chapped with cold. Splendid also for sprains, rheumatism and muscular pains. Zam-Buk derives its wonderful properties from certain rare herbal extracts. It's the most wonderful healer ever discovered. See all dealers, a box at 25c. Sample for 1c, stamp, Zam-Buk Co., Toronto.

SAANICH PUTS SYSTEM INTO JITNEY ROUTES

Council Protects Gorge Busses and Limits Number of Cars

Fares and Routes Specified in New By-law

Jitney regulations to be effective on October 1, were before the Saanich Council last night. The chief change made in the draft by-law being the elimination of the proposal to demand a bond of \$1,000 per seat from operators.

Gorge Road.
Discussing the Gorge route, Councillor McWilliam was firmly in favor of granting a monopoly to the bus line, as having been started, years ago, on faith of a Council promise to prevent running of other cars at the times scheduled.

Councillor Horner and Councillor Macneil supported jitney men as preventing monopoly.
Licenses to be issued for the Gorge Road route were then limited to three, this effectively protecting the busses.

Lake Hill.
The Quadra Street to Lake Hill route will also be limited to three licenses at present, despite the recent withdrawal of the large busses and the present operation of six jitneys in their place. Councillor Macneil bitterly complained of this limitation asserting "you are just trying to make the jitneys a source of irritation."

Burnside-Royal Oak.
The jitney now running via Wilkinson Road to Royal Oak will be protected, one other license being authorized as far as Wilkinson Road.

Sidney-Saanichton.
Three busses now operating on the East Saanich Road will be licensed, and a fourth to run to the centre of Keating's district via the Central Saanich Road will also be permitted.

Cordova Bay.
Five cars will be authorized on the route to Cordova Bay via Quadra Street and Blenkinsop Road, and five more to run via Shelbourne Street.

Carey Road.
Six operators will be permitted on the services to Glenora Avenue via Carey Road and Douglas Street.

Gordon Head.
Gordon Head will be served by two cars, operating via Shelbourne Street to San Juan Avenue, and five licenses will be granted for cars from the Uplands to Cadboro Bay Beach to accommodate the Summer holiday traffic.

Sightseeing Cars.
Sightseeing cars will be exempt from license requirements, although the regularly operated cars running to the Observatory will have to pay the half-yearly \$5 fee required under the by-law.

Council Sets Fares.
Maximum fares specified by the Council for the various routes, from the centre of Victoria are, ten cents for four tickets for twenty-five cents for the shorter runs, twenty cents to Royal Oak, twenty-five cents to Cordova Bay or Gordon Head; fifty cents to the northern Saanich boundary.

The responsibility for selecting the first licensees will be borne by the Council, which will deal with the initial applications. Thereafter a specially appointed motor license inspector will deal with issuance and cancellation of permits, it being suggested that Chief of Police Brogan should be vested with this authority. The by-law will receive its final reading at the next session of the Council.

PLANS MADE FOR SIDNEY CONCERT

(Times Correspondence)
Sidney—The ladies' Aid of the Union Church, held their monthly meeting at the home of Mrs. S. J. Taylor, and made final arrangements for the concert to be held in the Auditorium on Wednesday, September 20, at 8 p. m. At the end of the meeting Mrs. Taylor and Mrs. Quagmell gave a very good tea to all.

A very enjoyable as well as interesting meeting of the North Saanich Women's Institute was held at Beach House on Thursday afternoon, when Mrs. McLaughlin, of Victoria, spoke on provincial organization. Afterwards a very nice tea was served at which Mrs. Speedie was the hostess.

Major and Mrs. A. W. Buck have gone for a trip to Jervis Inlet on their schooner yacht "Scaramouche." Mr. and Mrs. Bodkin have gone with them for the cruise.

The S.S. Meriden put in at the

Best flower study, one print—2, E. E. Snider.

MANUAL TRAINING DISPLAY PLEAS

Description of Interesting Section of Cowichan Fair

(Times Correspondence)

Duncan—J. Kyle, judge of the manual training display at the Cowichan Agricultural Society Fair, expressed high approval of the work. He found the group of several hundred models exhibited of a very high order. The projects are so varied, those for the home and those for the farm being equally practical. Their making must have been exceedingly appealing to the young workers, who particularly pleased Mr. Kyle was the gradual development from the elementary work to that which is carried out by boys in the High School, showing that the training has been sound, otherwise these big problems could not have been carried out in such numbers, and indicating that the individuality of the boys has been developed.

Among the projects to be seen are letter racks in the quaint form of an elephant goughed apart, key racks, towel rollers, book racks, and various kinds of book cases, plant stands, foot stools, spool holders, camp chairs, medicine cupboards and very finely finished turnings. In fact, the display was a masterpiece of the workmanship, according to Mr. Kyle.

A lamp stand and a photograph which will be used at intervals, and a duck canoe which a High School boy brought back from being in use were among the interesting models. J. G. Somerville, the instructor, is to be congratulated on the splendid display, which is from the Duncan and Chemainus centres.

Deserving special praise, Mr. Kyle considered, was the taste displayed in introducing carving and copper work on some of the advanced models.

Luncheon.
On Friday, at 12 o'clock, Hon. S. F. Tolmie, M. P., and Hon. E. D. Barrow, Provincial Minister of Agriculture, will be entertained at luncheon in the supper room of the Agricultural Hall by the directors. There is no doubt that many members of the society and their friends will be glad to have luncheon there to hear these two gentlemen speak.

Filtration is the safety valve of marriage.

Collection of Michaelmas daisies—G. H. Townsend, L. W. Huntington. Collection of roses—L. W. Huntington. E. T. Cresswell. Collection of roses—L. W. Huntington. E. T. Cresswell. Collection of perennial phloxes—G. H. Townsend, L. W. Huntington.

Ready-to-Serve

Crisp, delicious, oven-baked, filmy shreds of whole wheat, salt-free and unsweetened—

Shredded Wheat

Sun and soil produce nothing so good for man as the whole wheat—but you can't eat raw wheat—it would only be partially digested. Shredded Wheat is the whole wheat boiled in steam, drawn into filmy shreds, baked a crisp, golden brown. A Summer joy to the housewife.

Two Biscuits with milk or cream make a complete, nourishing meal. Eat it for breakfast with sliced bananas or prunes; for lunch with berries; for dinner with sliced peaches, apricots, stewed raisins, or fresh fruits. Ready-cooked, ready-to-eat.

wharf, on Thursday afternoon for clearance papers on her way from San Francisco to Genoa Bay, where she will load timber and then return to her home port.

MANAGERS APPOINTED.
Montreal, Sept. 15.—The appointment is announced of W. B. Wiegand as general manager of the re-

WINS SCHOLARSHIP.
Toronto, Sept. 15.—The University of Toronto announces that the first student to be awarded the French Government scholarship, of a value of about \$1,400, is Miss Honora Cochran, B. A., of Toronto, who has been chosen from the graduating class of this year.

THE TROUBLE
"What's the trouble?"
"Pa's sore."
"What's happened?"
"Ma kept at him until she got him to teach her to drive the car."
"Well?"
"Now she is insisting on having the car to drive."—Detroit Free Press

A Message

To women who like dainty undergarments.
We sell underwear at the mere cost of materials.

If you are interested in beautiful lingerie and wish to see what a combination of a factory and a retail organization can accomplish towards producing and selling exquisite under-garments at unheard of prices, just read a few of the examples given here and then if you believe what we say, come in and see our display of Fall Lingerie. See the garments themselves at first hand, observe the great pains taken to make each fit as it should—examine the quality of the materials—the workmanship—the careful tailoring—that smart appearance that no home can give and then we believe you will be convinced that it no longer pays to make your own undies.

You cannot make Lingerie as cheaply as this!

Below are four examples, our selling price and what it would cost you to buy the materials and make them. See what you save.

Nightgowns of Colored Silk \$4.98
Shantung Our Price \$4.98

To make yourself
3 1/2 yards Colored Shantung \$1.50 \$5.25

Camisole extra heavy Crepe de Chine Our Price \$1.98

To make yourself
1 1/2 yard Crepe de Chine \$3.50 \$1.75

Elastic10
Ribbon07
1 1/4 yards Hemstitching at 15c19

Pongee Bloomers \$1.98
..... Our Price \$1.98

To make yourself
12-3 yards Best Quality Pongee \$1.15 \$1.92

Elastic15
..... \$2.07

Silk Envelope Chemise, Best \$4.98
Radium Silk Our Price \$4.98

To make yourself
13/4 yards Radium Silk at \$2.50 \$4.37

1-3 yard Filet Lace at \$2.0066
3 yards Hemstitching at 15c45
Ribbons and Buttons20

..... \$5.68

Why are we able to sell at such prices?
Because we import our own materials direct from their source of manufacture at prices much below what the retail merchant pays, then we make everything in our own work-rooms and sell them in our own stores. No middleman takes a profit—we save money everywhere.

Be sure and see our display of New Fall Lingerie.
You will be amazed at the low prices

SHERIFF'S SALE

1,114 Shares in the Sidney Island Brick and Tile Company, Limited.

Notice is hereby given that under and by virtue of a Warrant of Execution issued out of the County Court of Victoria, holden at Victoria, and to me J. L. Skene, and certain other Warrants of Execution in my hands against J. L. Skene, I have seized 1,114 shares in the Sidney Island Brick and Tile Company, Limited, standing in the name of J. L. Skene, and I will offer the same for sale at public auction at my office, Law Chambers, Baxton Street, Victoria, on Tuesday morning, September 19, at 11 o'clock a.m. in terms of said Warrant.

NOTICE

To Ham Poo, Lap Eng and Yee Park, Trading Under the Name of Yick Wo, 34 Flagg Street, Victoria, B. C.

YOU AND EACH AND EVERYONE

OF YOU are hereby required to take notice that default has been made in payment of the principal and interest moneys secured by a certain Indenture of Mortgage dated the 18th day of December, 1906, made by Ham Poo, Lap Eng and Yee Park, mortgagors, of the first part, and Edwin A. Carlisle, of the city of Victoria, B. C., mortgagee, of the second part, and assigned to me, Bunck, E. Pemberton, by Deed dated 2nd February, A. D. 1915, upon the following land, to-wit: All and singular that certain parcel or tract of land being portion of Section Seventy-nine (79), Esquimalt District, British Columbia, and being more particularly described as follows:

Commencing at the northeast corner of Section Seventy-nine (79), thence in a southerly direction along the easterly boundary of said Section Seventy-nine (79) a distance of ten chains, thence in a westerly direction and parallel to the northerly boundary of said Section Seventy-nine (79), thence in an easterly direction along the northerly boundary of said Section Seventy-nine (79) to the point of commencement, said piece or parcel of land being more particularly shown and described on the plan or map attached to said mortgage and thereon colored red, and containing thirty (30) acres more or less, and there is now overdue Six Hundred Dollars (\$600.00) balance of the principal money and Three Hundred and Sixty-four Dollars and Fifty Cents (\$364.50) interest to the 2nd day of August, 1922.

AND TAKE NOTICE that I, the said assignee of the mortgage, will proceed forthwith to exercise the powers of entering upon, leasing or selling the mortgaged lands described in the said mortgage.

AND FURTHER TAKE NOTICE that the said lands will be offered for sale at Public Auction at the office of Pemberton & Son, 625 Fort Street, Victoria, B. C., on Monday, the 25th day of September, A. D. 1922, at 12 o'clock noon.

Dated at Victoria, B. C., this 11th day of September, 1922.

BUSICK E. PEMBERTON, Assignee of Mortgage.

IN A BAD CONDITION

"A man rushed excitedly into a smoking compartment of the train. 'A lady has fainted in the next carriage,' he said. 'Has anyone got a bottle of whisky handy?'"

Instantly half a dozen bottles were thrust out to him. Taking the nearest one he turned the bottle up and partook of a good drink.

"Thanky," he said, handing the flask back. "It always did make me feel bad to see a lady faint."

FOUL BAY.

FOR CHILDREN

THE SANDMAN STORY FOR TO-NIGHT

that Princess Stella should not be made unhappy by seeing her.

Princess Stella had golden curls that fell over her white shoulders like dancing sunlight. Her pink cheeks were like a rose with the morning dew upon it. Her one blue eye was like the bluebell that grew in the dell of the fairies.

"Too bad, too bad," people would say when they looked at the Princess. "No one will marry even a Princess who has only one eye, and the King will have no one to rule after him, but a daughter with one eye."

But these things the Princess and her parents did not hear and so Princess Stella grew up a happy girl and the King and Queen lived on the hope given them by the Fairy Queen.

And then one day the Queen said to her husband, "Our child is a young lady and it is time she thought of a husband. Go to the dell of the fairies about it."

That night, just as he had done years before, the King crept like a servant from his Palace and at the hour of midnight went to the dell where the fairies held their meetings.

"The time is at hand," said the Fairy Queen very solemnly. "We have not been idle all this time and while I cannot promise that the Princess shall be freed from the power of the Witch of the Winds I will give you all the help I can just as I promised years ago that I would do."

"You must give a baby the King has issued a proclamation forbidding

any girl child showing herself in the presence of the Princess. When the Princess rode abroad at the little girls peeped from behind closed shutters and no little girls ever came to the palace, so the Princess did not know she was different from other little girls.

But no little girl in all the kingdom was unhappy because she had to hide when the Princess was about, for they all knew her story and felt sorry for her, and they knew so much of her goodness that had they met the Princess there was not a little girl in all the land that would not have covered her face or at least one of her eyes.

FOUR-ROOM BUNGALOWS

"The King did not feel very hopeful when he returned and when he told the Queen that they must give a ball she was filled with dismay for she could see only unhappiness for her daughter."

VANCOUVER ISLAND NEWS

COWICHAN WOMEN HEARD ADDRESSES

Meetings of Women's Institutes Have Been Resumed

(Times Correspondence)

Duncan—The Cowichan Women's Institute resumed its monthly meetings on Tuesday afternoon, the president, Mrs. F. S. Leather, in the chair.

Business was transacted and a series of card parties, etc., is being arranged by the entertainment committee, the first to be held on September 28.

Mrs. W. Patterson was chosen as the official delegate to attend the International Conference of Women's Institutes, to be held in Victoria.

Art School.

A letter from the B. C. Art League, Vancouver, was read asking the Institute to endorse the following resolution:

"Resolved that this society unanimously endorses the aims and objects of the B. C. Art League and will support them in their efforts to obtain a charter and substantial grants from the Federal and Provincial Governments for building, equipment and maintenance of a B. C. School of Arts and Crafts in Vancouver upon similar lines to the Ontario College of Art, Toronto."

And be it further resolved that a copy of this resolution be sent to Premier King, Premier Oliver, Victoria, and to the B. C. Art League.

As Mrs. George Henderson will be absent from the October meeting, the educational reports are to be left over until December and the Rev. A. F. Munro has kindly consented to give a paper in October on "Rural Depopulation."

Public Nursing.

Miss Farrar, District Health Centre Nurse, gave an interesting address on "Public Health Nursing."

"There are six different departments in the scope of public health nursing," Miss Farrar said. "There are"

Supervision.

"In communicable disease the work of the nurse includes supervision of cases and contacts, investigation and determination of the sources of infection, search for contacts, supervision and inspection of quarantined cases, detection and isolation of contacts, and distribution of literature on communicable diseases to the health officer."

In conclusion Miss Farrar said: "Public health nursing is organized for the caring of well people and the prevention of disease and growth. We need unity of direction, and in time we shall have it. It is a goal worth striving for."

Oriental Immigration.

Mrs. W. H. Gibson then gave a most interesting paper on "Oriental Immigration." She said:

"In my last report I brought before you the immigration estimates passed by the House and the Government intimating that it would announce its immigration policy when the estimates were under consideration. There have been one or two minor amendments, but I have seen no new policy announced. Resolutions regarding the Oriental problem have been sent in from all kinds of organizations. The Associated Boards of Trade of B. C. especially urged 'rigid laws on immigration.'"

In Parliament.

She then outlined the debate on the question at the last session of Parliament, in which the British Columbia members were united in asking action. The resolution for "effective restriction" carried by 130 to 35.

"All know," Mrs. Gibson continued, "that it is in British Columbia the pressure is felt and the danger evident. The great bulk of the Canadian people have little interest in the matter because it rarely comes under their notice. British Columbia is so remote from the most populous centres of Canada and its representation at Ottawa is so small that protests seem of little avail."

"How the Orientals first came is of interest. The first Chinese drifted ashore after the gold rush in California; but the great influx came in the early eighties."

"The Japanese were later comers. They date from about thirty years ago. The Chinese in the British Columbia now number 35,000."

Population.

According to official figures furnished to the Government by the census, she continued, there were in 1921 15,000 Japanese in British Columbia, in 1920 the number of Chinese births was 260, and Japanese 657. The reason for this was found in immigration reports. The Japanese were being held in their camps in almost equal numbers with their men. In three years 50 per cent of the Japanese immigrants were women and during the same time only 2 per cent of the Chinese immigrants were women.

"One-eighth of our population is already Oriental," she said, "and prosperous California became hysterical when in 1915 it found every thirteenth child to be a Japanese. The fisheries of British Columbia are largely in the hands of the Japanese. There is a total of 5,342 Japanese engaged in the B. C. fisheries."

"Ninety per cent of the truck gardening is done by Orientals. They are also going largely into the logging industry. There are over forty Japanese logging camps in operation on the coast at the present time."

"This year in Vancouver alone there are 1,045 Oriental school children. What will be the prospect in five years when we consider the high birthrate of these people?"

In Victoria.

"Many people object to Oriental children sitting side by side with white children, but when the question of segregation, or separate schools comes up, witness the trouble in Victoria," she said. "There is resort to the law courts."

Hearty applause was accorded to this paper and the meeting was then adjourned.

A delicious tea was served by Mrs. Seljrup, Mrs. Morrison, Mrs. Ash and Miss Eileen Dwyer.

CHEMAMINUS BOARD OF TRADE MAKES BANQUET PLANS

(Times Correspondence)

At a meeting of the Chemaminus and Board of Trade in the Chemaminus House, Chemaminus, Colonel Rivet-Carmac being in the chair in the absence

TWO "BUNGALOW SPECIALS."

1. LARGE LIVING ROOM, 2 cosy bedrooms, Dutch kitchen, scullery, fully equipped bathroom, large sunroom, make up one of the most charming and attractive little homes that we have on our list. The house is almost new and in excellent condition. In the living room there is a six-foot pressed brick fireplace, beautiful built-in buffet, leaded glass windows, all painted walls and ceiling. The bedrooms are nicely papered and tinted and have commodious closets. The kitchen is finished in white enamel and contains all kinds of labor saving devices. Stationary tubs in the scullery. Polished floors. Large, well-built garage for two cars with cement runway. Picturesque lawn and garden. This is really a lovely little home, and upon inspection you will see that it is one of the best buys on the market at \$1,150. ON EASY TERMS.

2. JUST OVER THE HALF-MILE CIR-

cled from the city hall, we have a brand new four-room bungalow ready for immediate occupancy. This little home is exceptionally well built, all by day labor, and contains sitting room with brick fireplace, buffet, window seat, two cosy bedrooms, large bright kitchen, fully equipped bathroom and a particularly fine bathroom fitted with the very best of fixtures over. All clearances, fully cemented, all wood lined and containing extra new garage, cement-sidewalk, good wire fence, and, in fact, the property is absolutely complete as it stands, and is offered at the "rock bottom" price of \$1,250. ON SUITABLE TERMS.

EXTRA SPECIAL.

6-ROOMED HOUSE, less than a mile from City Hall, to be given away for \$925. First come, first served. See us quick.

SWINERTON & MURRAY.

640 Fort Street.

AWARDS IN POTATO CONTEST ANNOUNCED

Metchosin District Competition Won By G. Ball

(Times Correspondence)

Metchosin—The result of the potato crop competition held in the Metchosin district through the Metchosin Farmers' Institute has been reported by C. Tice, potato specialist, who is in charge of the contest on behalf of the Department of Agriculture.
